

compliance program. The review determined that many of the practices, which led to the June 3, 1999, Consent Agreement, had not been corrected. A July 14, 2003 license application for the temporary export of Night Vision equipment was submitted by Mr. Lavery on behalf of an unregistered company; Mr. Lavery was unable to provide complete records and/or was unable to produce records required to be maintained by the ITAR for his current authorized exports; and Mr. Lavery violated a license proviso requiring proof of export be provided to the Department.

On December 12, 2006, as the result of these continuing violations, the Department and Mr. Lavery entered into a new Consent Agreement, which debarred Mr. Lavery and SAI until December 12, 2007. Reinstatement after December 12, 2007 is not automatic but contingent on full compliance with the terms of the December 12, 2006 Consent Agreement and evidence that the underlying problems that gave rise to the violations have been corrected. At the end of the debarment period, Mr. Lavery and SAI may apply for reinstatement. Until licensing privileges are reinstated, Mr. Lavery and SAI will remain debarred.

This notice is provided to make the public aware that the persons listed above are prohibited from participating directly or indirectly in any brokering activities and in any export from or temporary import into the United States of defense articles, related technical data, or defense services in all situations covered by the ITAR.

Exceptions may be made to this denial policy on a case-by-case basis at the discretion of the Directorate of Defense Trade Controls. However, such an exception would be granted only after a full review of all circumstances, paying particular attention to the following factors: Whether an exception is warranted by overriding U.S. foreign policy or national security interests; whether an exception would further law enforcement concerns that are consistent with foreign policy or national security interests of the United States; or whether other compelling circumstances exist that are consistent with the foreign policy or national security interests of the United States, and law enforcement concerns.

This notice involves a foreign affairs function of the United States encompassed within the meaning of the military and foreign affairs exclusion of the Administrative Procedures Act. Because the exercise of this foreign affairs function is highly discretionary,

it is excluded from review under the Administrative Procedures Act.

Dated: January 29, 2007.

Ambassador Stephen Mull,

Acting Assistant Secretary for Political-Military Affairs.

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of renewal of exemptions; request for comments.

SUMMARY: FMCSA announces its decision to renew the exemptions from the vision requirement in the Federal Motor Carrier Safety Regulations for 15 individuals. FMCSA has statutory authority to exempt individuals from the vision requirement if the exemptions granted will not compromise safety. SUPPLEMENTARY INFORMATION:

Exemption Decision

Under 49 U.S.C. 31136(e) and 31315, FMCSA may renew an exemption from the vision requirements in 49 CFR 391.41(b)(10), which applies to drivers of CMVs in interstate commerce, for a two-year period if it finds "such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption." The procedures for requesting an exemption (including renewals) are set out in 49 CFR part 381. This notice addresses 15 individuals who have requested renewal of their exemptions in a timely manner. FMCSA has evaluated these 15

applications for renewal on their merits and decided to extend each exemption for a renewable two-year period. They are:

Howard K. Bradley
Kirk G. Braegger
Ambrosio E. Calles
Jose G. Cruz
Everett A. Doty
Donald J. Goretski
Harry P. Henning
Christopher L. Humphries
Ralph J. Miles
William R. New
Thomas C. Rylee
Stanley B. Salkowski, III
Michael G. Thomas
William H. Twardus
Ronald Watt

These exemptions are extended subject to the following conditions: (1) That each individual have a physical examination every year (a) by an ophthalmologist or optometrist who attests that the vision in the better eye continues to meet the standard in 49 CFR 391.41(b)(10), and (b) by a medical examiner who attests that the individual is otherwise physically qualified under 49 CFR 391.41; (2) that each individual provide a copy of the ophthalmologist's or optometrist's report to the medical examiner at the time of the annual medical examination; and (3) that each individual provide a copy of the annual medical certification to the employer for retention in the driver's qualification file and retain a copy of the certification on his/her person while driving for presentation to a duly authorized Federal, State, or local enforcement official. Each exemption will be valid for two years unless rescinded earlier by FMCSA. The exemption will be rescinded if: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained before it was granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315.

Basis for Renewing Exemptions

Under 49 U.S.C. 31315(b)(1), an exemption may be granted for no longer than two years from its approval date and may be renewed upon application for additional two year periods. In accordance with 49 U.S.C. 31136(e) and 31315, each of the 15 applicants has satisfied the entry conditions for obtaining an exemption from the vision requirements (63 FR 66226; 64 FR 16517; 67 FR 76439; 68 FR 10298; 70 FR 7545; 65 FR 45817; 65 FR 77066; 67 FR 71610). Each of these 15 applicants has

requested timely renewal of the exemption and has submitted evidence showing that the vision in the better eye continues to meet the standard specified at 49 CFR 391.41(b)(10) and that the vision impairment is stable. In addition, a review of each record of safety while driving with the respective vision deficiencies over the past two years indicates each applicant continues to meet the vision exemption standards. These factors provide an adequate basis for predicting each driver's ability to continue to drive safely in interstate commerce. Therefore, FMCSA concludes that extending the exemption for each renewal applicant for a period of two years is likely to achieve a level of safety equal to that existing without the exemption.

Request for Comments

FMCSA will review comments received at any time concerning a particular driver's safety record and determine if the continuation of the exemption is consistent with the requirements at 49 U.S.C. 31136(e) and 31315. However, FMCSA requests that interested parties with specific data concerning the safety records of these drivers submit comments by March 22, 2007.

FMCSA believes that the requirements for a renewal of an exemption under 49 U.S.C. 31136(e) and 31315 can be satisfied by initially granting the renewal and then requesting and evaluating, if needed, subsequent comments submitted by interested parties. As indicated above, the Agency previously published notices of final disposition announcing its decision to exempt these 15 individuals from the vision requirement in 49 CFR 391.41(b)(10). The final decision to grant an exemption to each of these individuals was based on the merits of each case and only after careful consideration of the comments received to its notices of applications. The notices of applications stated in detail the qualifications, experience, and medical condition of each applicant for an exemption from the vision requirements. That information is available by consulting the above cited **Federal Register** publications.

Interested parties or organizations possessing information that would otherwise show that any, or all of these drivers, are not currently achieving the statutory level of safety should immediately notify FMCSA. The Agency will evaluate any adverse evidence submitted and, if safety is being compromised or if continuation of the exemption would not be consistent with the goals and objectives of 49

U.S.C. 31136(e) and 31315, FMCSA will take immediate steps to revoke the exemption of a driver.

Issued on: February 9, 2007.
