*Type of Review:* Extension of a

*Abstract:* ALS is a disease of high  
priority to the Department of Veterans  
Affairs because of ongoing concerns  
about the health of veterans who served  
in the Gulf War. The creation of the  
registry will have significance both for  
VA and for the larger U.S. society in  
understanding the natural history of  
ALS. It will provide VA with crucial  
epidemiological data on the current  
population of veterans with ALS, as  
well as the ongoing identification of  
new cases. The data will help VA to  
understand how veterans are affected by  
ALS and may assist with early  
identification of new ALS clusters. This  
registry will provide a mechanism for  
informing veterans with ALS of new  
clinical drug trials and other studies.
