

“Permitted under specified circumstances.”

Content Changes

The content of the Synar Report has changed little. The content changes that have been made address the need to (1) clarify the intent of information requested via the addition of clarifying questions, (2) reduce the need for Government Project Officers to ask additional questions to supplement the originally submitted Report. These additions and changes are essential to SAMHSA's ability to adequately assess state and jurisdictional compliance with the Synar regulation.

In Section I (Compliance Progress), the following changes are being made with respect to the Annual Synar Report:

Questions 4d–g—Coordination with Agency that Receives the FDA State Enforcement Contract—These close-ended questions ask the state to list the agency that is under contract to the FDA

to enforce federal youth access laws, to describe the relationship between the state's Synar program and this agency, and to identify if the state uses data from the FDA enforcement inspections for the Synar survey. They have been added to replace the previously open-ended Question 5g, which required a narrative response. These close-ended questions will focus state responses.

In Appendix B (Synar Survey Sampling Methodology), the following changes are being made:

Questions 9a–b—Synar Survey Estimation System Sample Size (SSES) Calculator—These questions, which ask if the state used the SSES sample size calculator and if so, if they used the state or stratum level calculator, will eliminate the need for Government Project Officers to ask these clarifying questions during the review process. This revision also eliminates the need for those states who use the SSES sample size calculator to manually list the sample size formulas.

Question 10b—Stratum Level Information—This question, which asks states who used the stratum level calculator to provide the stratum level information, eliminates the need for Government Project Officers to ask this clarifying question during the review process.

In Appendix C (Synar Survey Inspection Protocol), the following change is being made:

Questions 4a–b—Type of Tobacco Products—These questions, which ask the state to define the type of tobacco products requested during Synar inspections and to describe the protocol for tobacco type selection, have been added to Appendix C. They have been added to provide additional information about state Synar protocols, which is frequently requested by partner agencies and can also be used to target technical assistance.

There are no changes to Forms 1–5 or Appendix D.

ANNUAL REPORTING BURDEN

45 CFR Citation	Number of respondents ¹	Responses per respondents	Total number of responses	Hours per response	Total hour burden
Annual Report (Section 1—States and Territories) 96.130(e)(1–3)	59	1	59	15	885
State Plan (Section II—States and Territories) 96.130(e)(4,5), 96.130(g)	59	1	59	3	177
Total	59				1,062

¹ Red Lake Indian Tribe is not subject to tobacco requirements.

Written comments and recommendations concerning the proposed information collection should be sent by April 5, 2013 to the SAMHSA Desk Officer at the Office of Information and Regulatory Affairs, Office of Management and Budget (OMB). To ensure timely receipt of comments, and to avoid potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, commenters are encouraged to submit their comments to OMB via email to: OIRA_Submission@omb.eop.gov. Although commenters are encouraged to send their comments via email, commenters may also fax their comments to: 202–395–7285. Commenters may also mail them to: Office of Management and Budget, Office of Information and Regulatory Affairs, New Executive Office Building, Room 10102, Washington, DC 20503.

Summer King,
Statistician.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

[Docket ID FEMA–2013–0002; Internal Agency Docket No. FEMA–B–1297]

Changes in Flood Hazard Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Notice.

SUMMARY: This notice lists communities where the addition or modification of Base Flood Elevations (BFEs), base flood depths, Special Flood Hazard Area (SFHA) boundaries or zone designations, or the regulatory floodway (hereinafter referred to as flood hazard determinations), as shown on the Flood Insurance Rate Maps (FIRMs), and where applicable, in the supporting Flood Insurance Study (FIS) reports, prepared by the Federal Emergency Management Agency (FEMA) for each

community, is appropriate because of new scientific or technical data. The FIRM, and where applicable, portions of the FIS report, have been revised to reflect these flood hazard determinations through issuance of a Letter of Map Revision (LOMR), in accordance with Title 44, Part 65 of the Code of Federal Regulations (44 CFR part 65). The LOMR will be used by insurance agents and others to calculate appropriate flood insurance premium rates for new buildings and the contents of those buildings. For rating purposes, the currently effective community number is shown in the table below and must be used for all new policies and renewals.

DATES: These flood hazard determinations will become effective on the dates listed in the table below and revise the FIRM panels and FIS report in effect prior to this determination for the listed communities.

From the date of the second publication of notification of these changes in a newspaper of local

circulation, any person has ninety (90) days in which to request through the community that the Deputy Associate Administrator for Mitigation reconsider the changes. The flood hazard determination information may be changed during the 90-day period.

ADDRESSES: The affected communities are listed in the table below. Revised flood hazard information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at www.msc.fema.gov for comparison.

Submit comments and/or appeals to the Chief Executive Officer of the community as listed in the table below.

FOR FURTHER INFORMATION CONTACT: Luis Rodriguez, Chief, Engineering Management Branch, Federal Insurance and Mitigation Administration, FEMA, 500 C Street SW., Washington, DC 20472, (202) 646-4064, or (email) Luis.Rodriguez3@fema.dhs.gov; or visit

the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The specific flood hazard determinations are not described for each community in this notice. However, the online location and local community map repository address where the flood hazard determination information is available for inspection is provided.

Any request for reconsideration of flood hazard determinations must be submitted to the Chief Executive Officer of the community as listed in the table below.

The modifications are made pursuant to section 201 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4105, and are in accordance with the National Flood Insurance Act of 1968, 42 U.S.C. 4001 *et seq.*, and with 44 CFR part 65.

The FIRM and FIS report are the basis of the floodplain management measures that the community is required either to adopt or to show evidence of having in effect in order to qualify or remain qualified for participation in the

National Flood Insurance Program (NFIP).

These flood hazard determinations, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The community may at any time enact stricter requirements of its own or pursuant to policies established by other Federal, State, or regional entities. The flood hazard determinations are in accordance with 44 CFR 65.4.

The affected communities are listed in the following table. Flood hazard determination information for each community is available for inspection at both the online location and the respective community map repository address listed in the table below. Additionally, the current effective FIRM and FIS report for each community are accessible online through the FEMA Map Service Center at www.msc.fema.gov for comparison.
