Exemptions claimed for the system:

No exemption shall be asserted with respect to information submitted by and collected from the individual or the individual's representative in the course of any redress process associated with this System of Records.

This system, however, may contain records or information recompiled from or created from information contained in other systems of records, which are exempt from certain provisions of the Privacy Act. For these records or information only, in accordance with 5 U.S.C. 552a(j)(2), (k)(1), (k)(2), and (k)(5), DHS will also claim the original exemption for these records or information from subsections (c)(3) and (4); (d)(1), (2), (3), and (4); (e)(1), (2), (3), (4)(G) through (I), (5), and (8); (f); and (g) of the Privacy Act of 1974, as amended, as necessary and appropriate to protect such information. Such exempt records or information may be law enforcement or national security investigation records, law enforcement activity and encounter records, or terrorist screening records.

These records could come from various DHS systems, such as the Treasury Enforcement Communications System (TECS) and the Transportation Security Information System (TSIS), or from third agency systems. DHS, after conferring with the appropriate component or agency, may waive applicable exemptions in appropriate circumstances and where it would not appear to interfere with or adversely affect the law enforcement or national security purposes of the systems from which the information is recompiled or in which it is contained. As required under the Privacy Act, DHS will issue a rule to describe more fully the needs and requirements for taking such exemptions on such information.
