DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. EF11-14-000]

Western Area Power Administration; Notice of Filing

Take notice that on September 23, 2011, Western Area Power Administration submitted its Rate Order No. WAPA-151 concerning rate and repayment data for Network Integration Transmission Service and Western Area Lower Colorado Balancing Authority Ancillary Services, for confirmation and approval on a final basis, effective October 1, 2011, and ending September 30, 2016.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. On or before the comment date, it is not necessary to serve motions to intervene or protests on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for

review in the Commission's Public Reference Room in Washington, DC. There is an "eSubscription" link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please email FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Comment Date: 5 p.m. Eastern Time on October 25, 2011.

Dated: October 18, 2011.

[Docket No. ER12-60-000]

Tenaska Power Management, LLC; Supplemental Notice That Initial Market-Based Rate Filing Includes Request for Blanket Section 204 Authorization

This is a supplemental notice in the above-referenced proceeding of Tenaska Power Management, LLC's application for market-based rate authority, with an accompanying rate tariff, noting that such application includes a request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability.

Any person desiring to intervene or to protest should file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214). Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant.

Notice is hereby given that the deadline for filing protests with regard to the applicant's request for blanket authorization, under 18 CFR part 34, of future issuances of securities and assumptions of liability, is November 1, 2011.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the

eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

The filings in the above-referenced proceeding are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. P-14263-000]

Wyco Power and Water, Inc.; Notice of Preliminary Permit Application Accepted for Filing and Soliciting Comments, Motions To Intervene, and Competing Applications

On September 1, 2011, Wyco Power and Water, Inc. filed an application for

a preliminary permit, pursuant to section 4(f) of the Federal Power Act (FPA), proposing to study the feasibility of the Regional Watershed Supply Project. The project would consist of hydropower development along a proposed 501-mile-long buried water supply pipeline that would extend from two points of diversion in Wyoming (one from the Green River and one from Flaming Gorge Reservoir) to a storage terminus near Pueblo, Colorado. The pipeline would be located in Adams, Arapahoe, Elbert, El Paso, Larimer, Pueblo, and Weld Counties in Colorado; and Albany, Carbon, Laramie, and Sweetwater Counties in Wyoming.

The sole purpose of a preliminary permit, if issued, is to grant the permit holder priority to file a license application for its proposed hydroelectric facilities during the permit term. Because the Commission would only have jurisdiction with regard to the proposed hydroelectric development, only one component of the proposed 501-mile-long water supply pipeline project, construction of substantial parts of this proposed pipeline may require permits from other federal agencies.

A preliminary permit does not authorize the permit holder to perform any land-disturbing activities or otherwise enter upon lands or waters owned by others without the owners' express permission.

The proposed project would direct water obtained from the Green River basin to southeastern Wyoming and the Front Range of Colorado for use by municipalities, agriculture, and hydropower. Along the pipeline route, the project would include two pumped storage hydroelectric developments and five conventional hydropower developments, with a total installed capacity of about 550 megawatts (MW). The project would consist of the following: (1) A water withdrawal facility on Flaming Gorge reservoir and a second facility on the Green River; (2) about nine natural-gas-powered pump stations; (3) about 501 miles of buried pipeline (between 72 and 120 inches in diameter); (4) the 240-MW Lake Hattie Pumped Storage Hydroelectric Development, using a new reservoir on Sheep Mountain as the upper reservoir and the existing Lake Hattie reservoir as the lower reservoir; (5) the 240-MW Wild Horse Canyon Pumped Storage Hydroelectric Development, with a new 10,300 acre-foot upper reservoir and a new lower reservoir; (6) five conventional 14-MW in-line hydroelectric developments; and (7) seven proposed transmission lines, about 30.59 miles in length, extending
