Petition for Exemption

Docket No.: FAA-2016-9358.

Petitioner: Minnesota Department of Natural Resources (MN DNR).

Section(s) of 14 CFR Affected:

§§ 43.3(g), 43.5(a), 43.7(f), 91.407(a).

Description of Relief Sought: The proposed exemption, if granted, would allow trained pilots to remove cabin and fuselage doors without the aid of an airframe and/or powerplant mechanic. MN DNR is requesting an exemption as an organization from the above rules during wildfire suppression activities on behalf of the companies that it contracts with for said services.

SUPPLEMENTARY INFORMATION:

Title: “Right-of-Way Cost Estimation Processes; State of the Practice”.

Government agencies that acquire real property for a Federal-aid highway program typically consider the cost of many alternatives for a potential project. As a part of this consideration, estimates of the cost of right-of-way needed for potential highway alignments must be determined and documented. Agencies may use several different methods to determine the estimate and document these costs. The methods range from a process using only paper and pencil, all the way to a process utilizing Geographic Information System (GIS) mapping and electronic data capture methods. The electronic methods presumably include an electronic calculation method which tabulates and calculates total costs, area to be acquired, and the numbers of relocations of residential and business property owners and tenants. Utilizing the paper-based method necessarily requires manual collection, organization and calculation which are likely expensive and inefficient, both in terms of dedicated staff time and dollars spent.

Respondents: Each State DOT will be asked to respond, as well as a limited number (5–10) of local government agencies that have large and complex transportation programs. Each invited

agency will be asked to respond to a one-time survey containing questions about the agency’s ROW cost estimation process and management.

Frequency: There will be one survey only.

Estimated Average Burden per Response: Approximately 8–16 person-hours to fully and accurately respond to the survey, depending on the size and complexity of an individual agency’s transportation program.

Estimated Total Annual Burden Hours: Approximately 900 hours. (This is the estimated total burden, for approximately 60 State and local government transportation agencies to respond to a single survey.)

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA’s performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB’s clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: April 19, 2018.

Michael Howell,

FHWA Information Collection Officer.

Federal Transit Administration

FY 2018 Competitive Funding Opportunity: Low or No Emission Grant Program

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of funding opportunity (NOFO).

SUMMARY: The Federal Transit Administration (FTA) announces the opportunity to apply for \$84,450,000 in competitive grants under the fiscal year (FY) 2018 Low or No Emission Grant Program (Low-No Program; Catalog of Federal Domestic Assistance (CFDA) number: 20.526). In addition to \$55 million authorized by federal transit law, the Consolidated Appropriations Act, 2018 authorizes an additional

\$29,450,000 for the Low-No Program for FY 2018. As required by Federal transit law, funds will be awarded competitively for the purchase or lease of low or no emission vehicles that use advanced technologies for transit revenue operations, including related equipment or facilities. Projects may include costs incidental to the acquisition of buses or to the construction of facilities, such as the costs of related workforce development and training activities, and project administration expenses. FTA may award additional funding that is made available to the program prior to the announcement of project selections.

DATES: Complete proposals must be submitted electronically through the *GRANTS.GOV* “APPLY” function by 11:59 p.m. Eastern time on June 18, 2018. Prospective applicants should initiate the process by registering on the *GRANTS.GOV* website promptly to ensure completion of the application process before the submission deadline. Instructions for applying can be found on FTA’s website at <http://transit.dot.gov/howtoapply> and in the “FIND” module of *GRANTS.GOV*. The funding opportunity ID is FTA–2018–003–LowNo. Mail and fax submissions will not be accepted.

A. Program Description

Section 5339(c) of Title 49, United States Code, as amended by the Fixing America’s Surface Transportation (FAST) Act, (Pub. L. 114–94, Dec. 4, 2015), authorizes FTA to award grants for low or no emission buses through a competitive process, as described in this notice. The Low or No Emission Bus Program (Low-No Program) provides funding to State and local governmental authorities for the purchase or lease of zero-emission and low-emission transit buses, including acquisition, construction, and leasing of required supporting facilities such as recharging, refueling, and maintenance facilities. FTA recognizes that a significant transformation is occurring in the transit
