*OMB Number:* 0596-New.

*Type of Request:* New.

*Abstract:* The Forest Service, U.S. Department of Agriculture is proposing a new information collection for a visitor comment card to be used at Grey Towers. Located in Milford, Pennsylvania, Grey Towers was originally the summer estate of the James Pinchot family and later the primary home of Gifford Pinchot, America's first forester and founder of the USDA Forest Service. In 1963, Gifford Bryce Pinchot, son of Gifford and Cornelia, donated Grey Towers and 102 acres to the Forest Service, the Federal agency founded by his father and which now administers the site.

The Forest Service works with numerous partners to carry on the Pinchot legacy by delivering public programs, interpretive tours, and conservation education programs. Embracing a philosophy of preservation through use, Grey Towers, in partnership with the Pinchot Institute, also functions as an active conference center for conservation and natural resource issues. Today, conferences and seminars at the estate bring together a diversity of leading conservation and environmental thinkers to help guide the future of natural resource conservation.

Participant input is vital to achieving Grey Towers' goal of provide quality-based programs and events. The proposed comment card provides a venue for those participating in meetings and educational activities at Grey Towers to provide feedback. The completion and subsequent evaluation of this form ensures that Grey Towers can continue to provide excellent service to all attendees. The information collection only covers the burden associated with responses collected from the public, though Federal employees also attend events held at the facility.

The information is collected on an 8.5-inch by 11-inch form provided to program and event participants at the conclusion of the activity. Forest Service employees overseeing Grey Towers programs and administration collect the information and use it to improve and enhance the programs and

events. Information collected includes attendance and feedback from program attendees.

Without this information collection, the Forest Service would not have the necessary information to enhance and improve offered programs. Programs or events could continue to have negative aspects of which the staff would be unaware, such as insufficient or unbeneficial delivery or content.
