SUPPLEMENTARY INFORMATION: The FSFL program provides, through the FSA county offices, low-interest loans to eligible producers for constructing on-farm storage facilities for the commodities they produce. Since the FSFL Program was reestablished in May 2000, FSA has disbursed \$731,453,541.46 in facility loans to over 18,600 producers to build or upgrade storage and handling facilities for

562,493,806 bushels of on-farm grain storage.

The 2008 Farm Bill (Pub. L. 110-246) includes several changes to the FSFL program. The 2008 Farm Bill adds hay and renewable biomass as eligible FSFL commodities; extends the maximum loan term to 12 years; increases the maximum loan amount to \$500,000; and allows for one partial loan disbursement and the final disbursement. The 2008 Farm Bill also clarifies the loan security requirements. The 2008 Farm Bill gives the USDA Secretary discretionary authority to determine other eligible commodities. CCC is looking into the following questions and options:

- Defining the eligible structures for new commodities,
- Handling portions of FSFL structures not used for FSFL storage,
- Defining the purpose of FSFL facilities, and
- Further securing loans with no resale collateral value.

Changes to the FSFL program will be implemented through rulemaking. More detailed information on FSFL is available on FSA's Web site at: <http://www.fsa.usda.gov/FSA/webapp?area=home&subject=prsu&topic=flp-fp>.

Public Participation
