This helps the Department assess the impact of its information collection requirements and minimize the public's reporting burden. It also helps the public understand the Department's information collection requirements and provide the requested data in the desired format. ED is soliciting comments on the proposed information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate;

(4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Integrated Postsecondary Education Data System (IPEDS) 2022–23 through 2024–25.

OMB Control Number: 1850–0582.

Type of Review: Revision of a currently approved information collection.

Respondents/Affected Public: Private Sector.

Total Estimated Number of Annual Responses: 62,970.

Total Estimated Number of Annual Burden Hours: 760,351.

Abstract: The National Center for Education Statistics (NCES) seeks authorization from OMB to make a change to the Integrated Postsecondary Education Data System (IPEDS) data collection. Current authorization expires August 31, 2022 (OMB# 1850–0582 v.24–29). NCES is requesting a new clearance for the 2022–23, 2023–24, and 2024–25 data collections to enable us to make changes to the IPEDS data collection components, clarify definitions and instructions throughout the components, and to continue the IPEDS collection of postsecondary data over the next three years. IPEDS is a web-based data collection system designed to collect basic data from all postsecondary institutions in the United States and the other jurisdictions. IPEDS enables NCES to report on key dimensions of postsecondary education such as enrollments, degrees and other awards earned, tuition and fees, average net price, student financial aid, graduation rates, student outcomes, revenues and expenditures, faculty salaries, and staff employed. The IPEDS web-based data collection system was implemented in 2000–01. In 2020–21, IPEDS collected data from 6,063 postsecondary institutions in the United States and the other jurisdictions that are eligible to participate in Title IV Federal financial aid programs. All Title IV institutions are required to respond to IPEDS (Section 490 of the Higher Education Amendments of 1992 [Pub. L. 102–325]). IPEDS allows other (non-title IV) institutions to participate on a voluntary basis; approximately 300 non-title IV institutions elect to respond each year. Institution closures and mergers have led to a decrease in the number of institutions in the IPEDS universe over the past few years. Due to

these fluctuations, combined with the addition of new institutions, NCES uses rounded estimates for the number of institutions in the respondent burden calculations for the upcoming years (estimated 6,100 Title IV institutions plus 300 non-title IV institutions for a total of 6,400 institutions estimated to submit IPEDS data during the 2022–23 through 2024–25 IPEDS data collections). IPEDS data are available to the public through the College Navigator and IPEDS Data Center websites. This clearance package includes a number of proposed changes to the data collection. As part of the public comment period review, NCES requests that IPEDS data submitters and other stakeholders respond to the directed questions found in Appendix D of this submission.
