

Notices

Federal Register

Vol. 86, No. 181

Wednesday, September 22, 2021

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

September 16, 2021.

The Department of Agriculture will submit the following information collection requirement(s) to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104–13 on or after the date of publication of this notice. Comments are requested regarding: (1) Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding these information collections are best assured of having their full effect if received by October 22, 2021. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such

persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

National Agricultural Statistics Service (NASS)

Title: 2022 Census of Agriculture—Substantive Change.

OMB Control Number: 0535–0226.

Summary of Collection: General authority for these data collection activities is granted under U.S. Code Title 7, Section 2204 which specifies that “The Secretary of Agriculture shall procure and preserve all information concerning agriculture which he can obtain . . . by the collection of statistics . . .”. The primary objective of the National Agricultural Statistics Service (NASS) is to provide data users with timely and reliable agricultural production and economic statistics, as well as environmental and specialty agricultural related statistics. To accomplish this objective, NASS relies on the use of diverse surveys that show changes within the farming industry over time.

This is a request to make a substantive change to the currently approved Census of Agriculture clearance. In this substantive change, NASS provides details to the separate data collection of agricultural decision makers’ sexual orientation and gender identification (SOGI) and disability status data that was mentioned in the original approval. This experimental data collection will be called *The Farm Producer Study* and will take place in late 2021. *The Farm Producer Study* will provide experimental data that will help determine if these questions should be included in future data collections, such as the 2027 Census of Agriculture.

Need and Use of the Information: Census of Agriculture data, including data that may be used to better understand the demographics of agricultural producers, are an integral part of the primary function of the National Agricultural Statistics Service (NASS), which is the collection, processing, and dissemination of current State, regional, and national agricultural statistics.

Description of Respondents: Farms: Individuals or households.

Number of Respondents: 75,000.

Frequency of Responses: Once.

Total Burden Hours: 15,965.

Levi S. Harrell,

Departmental Information Collection Clearance Officer.

BILLING CODE 3410–20–P

DEPARTMENT OF AGRICULTURE

Natural Resources Conservation Service

[Docket No. NRCS–2021–0003]

Proposed Revisions to Section 1 of the Field Office Technical Guides for Several States

AGENCY: Natural Resources Conservation Service (NRCS), U.S. Department of Agriculture (USDA).

ACTION: Notice of availability; request for comment.

SUMMARY: NRCS is giving notice that it is proposing to revise Section 1 of the Field Office Technical Guides in Alabama, Alaska, Arizona, Arkansas, California, Caribbean Area, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii and Pacific Islands Area, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming. The proposed changes include hydrology indicators for the identification in each of these States of farmed wetlands (FW) that are not playas, pocosins, or potholes. These indicators will be used by NRCS to identify FWs while completing wetland determinations for USDA program eligibility purposes.

DATES: *Comment Date:* We will consider comments that we receive by October 22, 2021.

ADDRESSES: We invite you to submit comments on this notice. You may submit comments through the:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov> and search for docket ID NRCS–2021–0003. Follow the instructions for submitting comments.

• *Mail, or Hand Delivery:* Mr. Jason Outlaw, National Leader for Wetland and Highly Erodible Land Conservation, Ecological Sciences Division, NRCS, USDA, 1400 Independence Ave., South Building, Room 4634, Washington, DC 20250. In your comment, specify the docket ID NRCS–2021–0003 and the name of the specific State for which you are submitting comments.

All comments will be available on <http://www.regulations.gov>.

Each State's proposed hydrology indicators for the identification of FWs that are not playas, pocosins, or potholes are available through <http://www.regulations.gov> by accessing Docket No. NRCS–2021–0003. Alternatively, the proposed indicators can be downloaded or printed from <https://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/programs/farmbill/?cid=NRCSEPRD1792621>. Requests for paper versions or inquiries may be directed to the specific State Conservationist at the contact points listed below.

FOR FURTHER INFORMATION CONTACT: The appropriate NRCS State Conservationist as listed below:

- *Alabama:* Ben Malone; (334) 887–4500; ben.malone@usda.gov;
- *Alaska:* Alan McBee; (907) 761–7780; alan.mcbee@usda.gov;
- *Arizona:* Keisha Tatem; (602) 280–8808; keisha.tatem@usda.gov;
- *Arkansas:* Michael E. Sullivan; (501) 301–3100; michael.sullivan@usda.gov;
- *California:* Carlos Suarez; (530) 792–5600; carlos.suarez@usda.gov;
- *Caribbean Area:* Luis Cruz-Arroyo; 787–281–4836; luis.cruz-arroyo@usda.gov;
- *Colorado:* Clint Evans; (720) 544–2802; clint.evans@usda.gov;
- *Connecticut:* Thomas Morgart; (860) 871–4014; thomas.morgart@usda.gov;
- *Delaware:* Kasey L. Taylor; (302) 678–4160; kasey.taylor@usda.gov;
- *Florida:* Juan Hernandez; (352) 338–9500; juan.hernandez@usda.gov;
- *Georgia:* Terrance O. Rudolph; (706) 546–2272; terrance.rudolph@usda.gov;
- *Hawaii/Pacific Islands Area:* Travis L. Thomason; (808) 600–2969; travis.thomason@usda.gov;
- *Idaho:* Curtis Elke; (208) 378–5701; curtis.elke@usda.gov;

- and
- *Wyoming:* Astrid Martinez; (307) 233–6750; astrid.martinez@usda.gov.

SUPPLEMENTARY INFORMATION:

Background

To participate in most USDA programs, agricultural producers agree to comply with the wetland conservation provisions. This means producers will not farm converted wetlands or convert wetlands to enable agricultural production. One of NRCS' roles is to make wetland determinations that locate and certify the existence of wetlands subject to the Food Security Act of 1985 on producers' land.

This notice announces that NRCS plans to revise Section 1 of the Field Office Technical Guide for the following States: Alabama, Alaska, Arizona, Arkansas, California, Caribbean Area, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii/Pacific Islands Area, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming. Section 1 of each State's Field Office Technical Guide may be used by NRCS to identify FWs while completing wetland determinations for USDA program eligibility purposes in that particular State. Specifically, the proposed changes will include hydrology indicators to identify FWs that are not playas, pocosins, or potholes.

Each State's proposed hydrology indicators for the identification of FWs that are not playas, pocosins, or potholes are available through <http://www.regulations.gov> by accessing Docket No. NRCS–2021–0003. Alternatively, the proposed indicators can be downloaded or printed from <https://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/programs/farmbill/?cid=NRCSEPRD1792621>. Requests for paper versions or inquiries may be directed to the specific State Conservationist at the contact points listed below.

Proposed Changes to the Field Office Technical Guide

NRCS plans to revise Section 1 of the Field Office Technical Guides for the States of Alabama, Alaska, Arizona, Arkansas, California, Caribbean Area, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii/Pacific Islands Area, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Montana,

Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming to include hydrology indicators for the identification of FWs that are not playas, pocosins, or potholes. These indicators will be used by NRCS to identify FWs as part of the technical documents and procedures to conduct wetland determinations on agricultural land for USDA program eligibility purposes as required by law as specified in 16 U.S.C. 3822.

The controlling regulations for the wetland conservation (WC) provisions of the Food Security Act of 1985, as amended, are provided in 7 CFR part 12, "Highly Erodible Land and Wetland Conservation." The regulations' broad definition of "wetland determination" describe an FW (in part) using two criteria. First, an FW is a wetland that prior to December 23, 1985, was manipulated and used to produce an agricultural commodity at least once before December 23, 1985. Second, FWs are described as wetlands that on December 23, 1985, did not support woody vegetation, and met the following hydrologic criteria: If not a playa, pocosin, or pothole, experienced inundation for 15 consecutive days or more during the growing season or 10 percent of the growing season, whichever is less, in most years (50-percent chance or more).

To decide effectively whether an area supports the required inundation for a FW that is not identified as a playa, pocosin, or pothole, the regulations then provide three options:

1. Observation of wetland hydrology indicators as identified in the local NRCS Field Office Technical Guide;
2. Procedures identified in State Off-Site Methods for wetland identification set forth in the local NRCS Field Office Technical Guide; or
3. The use of analytic techniques, such as the use of drainage equations or the evaluation of monitoring data.

The proposed FW hydrology indicators provide those NRCS will use under option one.

On August 28, 2020, USDA published a final rule in the **Federal Register** (85 FR 53137–53152) for the highly erodible land and wetland conservation provisions of the Food Security Act of 1985, as amended. The rule changed how NRCS identifies hydrology criteria for FWs that are not playas, pocosins, or potholes, consistent with the discussion above. Prior to that final rule, the regulations specified that NRCS would

identify FWs by using hydrology indicators showing evidence of recent inundation as contained in the applicable regional supplement to the Corps of Engineers Wetland Delineation Manual.

The preamble to the August 28, 2020, final rule provided that until such time as the updates to the NRCS Field Office Technical Guides have been published and public notice provided, NRCS will continue to use Group B (Evidence of Recent Inundation) hydrology indicators from the regional supplements to the Corps of Engineers Wetland Delineation Manual, as specified in the interim rule, published December 7, 2018, in the **Federal Register** (83 FR 63046–63052), to identify FWs that are not playas, pocosins, or potholes. Those Group B wetland hydrology indicators currently used by NRCS can be found in the regional supplements to the Corps of Engineers Wetland Delineation Manual at https://www.usace.army.mil/Missions/Civil-Works/Regulatory-Program-and-Permits/reg_supp/. The Corps of Engineers hydrology indicators will no longer be used by NRCS for the identification of FWs that are not playas, pocosins, or potholes once the State-specific NRCS indicators are considered final and published in Section 1 of each State's Field Office Technical Guide.

Notification and Public Comment

Section 343 of the Federal Agriculture Improvement and Reform Act of 1996 (16 U.S.C. 3862 note) specifies that USDA must allow public notice and comment for revisions to NRCS State technical guides which are used to carry out the Food Security Act of 1985 highly erodible land and wetland conservation provisions (16 U.S.C. 3801–3824).

NRCS will consider all comments that are received during the 30-day comment period. The final version of the Field Office Technical Guide for the States of Alabama, Alaska, Arizona, Arkansas, California, Caribbean Area, Colorado, Connecticut, Delaware, Florida, Georgia, Hawaii/Pacific Islands Area, Idaho, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Jersey, New Mexico, New York, North Carolina, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming as revised to include hydrology indicators for the identification of FWs that are not playas, pocosins, or potholes will be

adopted after the close of the 30-day period and after consideration of all comments. Responses to comments will be posted at <https://www.nrcs.usda.gov/wps/portal/nrcs/detailfull/national/programs/farmbill/?cid=nrcseprd1542016> once each State's final version is adopted.

Astor Boozer, Regional Conservationist, West Region, Natural Resources Conservation Service.

Terrell Erickson, Regional Conservationist, Northeast Region, Natural Resources Conservation Service.

Noller Herbert, Acting Regional Conservationist, Central Region, Natural Resources Conservation Service.

James Tillman,

Regional Conservationist, Southeast Region, Natural Resources Conservation Service.

BILLING CODE 3410–16–P

DEPARTMENT OF COMMERCE

Census Bureau

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Redistricting Data Program

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on May 07, 2021, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: U.S. Census Bureau, Department of Commerce.

Title: Redistricting Data Program.
OMB Control Number: 0607–0988.

Form Number(s): P4–02, P4–03, P4–04, P4–05, and P4–06.

Type of Request: Regular submission, Revision of a Currently Approved Collection.

Number of Respondents: 52.

Average Hours per Response:

Phase 4: 8 hours.

Phase 5: 2 hours.

Burden Hours: 520 hours.

Phase 4: 416 hours.

Phase 5: 104 hours.
