

TABLE 2—ESTIMATED LABOR COSTS FOR BURDEN HOURS

ICR No.	ICR title	Labor cost per hour	Time per response	Labor cost per response	Total burden hours	Total labor cost
1	541: Parts-Marking on 14 major parts (49 CFR 541.5(a)	\$32.93	2 minutes	\$1.10	150,000	\$4,950,000
2	541: Reporting of Target Areas to NHTSA	60.09	20 hours	1,201.80	460	27,641.40
3	542: Submissions for Determination of whether LDT Line is High Theft.	60.09	45 hours	2,704.05	45	2,704.05
4	542: Submission for Determination of whether LDT line Shares Interchangeable Parts with High Theft Line.	60.09	45 hours	2,704.05	45	2,704.05
Total	150,550	4,983,049

Estimated Total Annual Cost Burden: \$24,003,000.

49 CFR part 541: NHTSA assumes that most manufacturers will use the less expensive method of labeling the major parts on vehicles, and not stamp the VINs onto major parts, based on historical practice and the agency's

current understanding of how manufacturers fit labeling into the vehicle assembly line. The cost of this collection of information will comprise of printing costs for the labels affixed to the vehicle parts. NHTSA estimates that the average cost to print each label is \$0.381. There are an average 14 parts

per vehicle to label; therefore, the printing cost per vehicle is \$5.33. At present, the agency estimates that 4.5 million motor vehicles annually must have their major parts marked. The total annual costs are estimated to be \$24,003,000 for label identifiers ($\$5.33 \times 4.5$ million vehicles).

Number of parts labeled per vehicle	Printing cost per label	Total printing cost per vehicle	Number of vehicles per year	Total estimated printing cost
14	\$0.381	\$5.33	4.5 million	\$24,003,000

Target area submissions require no additional costs to the respondents above and beyond the labor costs.

49 CFR parts 542: NHTSA estimates that meeting Part 542 involves no additional costs to the respondents above and beyond the labor costs.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; (b) the accuracy of the Department's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility and clarity of the information collection; and (d) ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.
