

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Notice of Intent To Request Renewal From the Office of Management and Budget of a Currently Approved Information Collection Activity, Request for Comments; Changes in Permissible Stage 2 Airplane Operations**

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: This information will be used to issue special flight authorizations for non-revenue operations of Stage 2 airplanes at U.S. airports. Only a minimal amount of data is requested to identify the affected parties and determine whether the purpose for the flight is one of those enumerated by law.

DATES: Please submit comments by March 20, 2006.

FOR FURTHER INFORMATION CONTACT: Judy Street on (202) 267-9895, or by e-mail at: Judy.Street@faa.gov.

SUPPLEMENTARY INFORMATION:**Federal Aviation Administration (FAA)**

Title: Changes in Permissible Stage 2 Airplane Operations.

Type of Request: Renewal of an approved collection.

OMB Control Number: 2120-0652.

Forms(s): NA.

Affected Public: A total of 100 respondents.

Frequency: The information is collected as needed.

Estimated Average Burden per Response: Approximately 15 minutes per response.

Estimated Annual Burden Hours: An estimated 25 hours annually.

Abstract: This information will be used to issue special flight authorizations for non-revenue operations of Stage 2 airplanes at U.S. airports. Only a minimal amount of data is requested to identify the affected parties and determine whether the purpose for the flight is one of those enumerated by law.

ADDRESSES: Send comments to the FAA at the following address: Ms. Judy Street, Room 612, Federal Aviation Administration, Information Systems and Technology Services Staff, ABA-20, 800 Independence Ave., SW., Washington, DC 20591.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will

have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on January 11, 2006.

Judith D. Street,

FAA Information Collection Clearance Officer, Information Systems and Technology Services Staff, ABA-20.

BILLING CODE 4910-13-M

DEPARTMENT OF TRANSPORTATION**Federal Aviation Administration****Noise Compatibility Program Notice; Addison Airport, Addison, TX**

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the town of Addison under the provisions of 49 U.S.C. (the Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and 14 CFR part 150. These findings are made in recognition of the description of Federal and nonfederal responsibilities in Senate Report No. 96-52 (1980). On September 22, 2004, the FAA determined that the noise exposure maps submitted by the town of Addison under part 150 were in compliance with applicable requirements. On December 22, 2005, the FAA approved the Addison Airport noise compatibility program. Most of the recommendations of the program were approved.

DATES: *Effective Date:* The effective date of the FAA's approval of the Addison Airport noise compatibility program is December 22, 2005.

FOR FURTHER INFORMATION CONTACT: Mr. Paul Blackford, Environmental Specialist, Federal Aviation Administration, Texas Airports Development Office, ASW-650, 2601 Meacham Boulevard, Fort Worth, Texas 76193-0650. Telephone (617) 222-5607. Documents reflecting this FAA action may be reviewed at this same location.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the noise

compatibility program for Addison Airport, effective December 22, 2005.

Under section 47504 of the Act, an Airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the noise exposure maps. The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulations (FAR) Part 150 is a local program, not a Federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA's approval or disapproval of FAR Part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act and is limited to the following determinations:

a. The noise compatibility program was developed in accordance with the provisions and procedures of FAR Part 150;

b. Program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airport and preventing the introduction of additional non-compatible land uses;

c. Program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the Federal Government; and

d. Program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in FAR Part 150, section 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, State, or local law. Approval does not by itself constitute an FAA implementing action. A request for Federal action or
