47 CFR Part 73

[DA 03-3028, MB Docket No. 03-213, RM-10794]

Television Broadcast Service; Saranac Lake, NY

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: The Commission requests comments on a petition filed by Channel 61 Associates, LLC, requesting the substitution of channel 40 for channel 61- at Saranac Lake, New York. TV Channel 40 can be allotted to Saranac Lake with a plus offset at reference coordinates 44-09-35 N. and 74-28-34 W. Since the community of Saranac Lake is located within 400 kilometers of the U.S.-Canadian border, concurrence from the Canadian government has been obtained for this allotment.

DATES: Comments must be filed on or before December 1, 2003, and reply comments on or before December 16, 2003.

ADDRESSES: The Commission permits the electronic filing of all pleadings and comments in proceeding involving petitions for rule making (except in broadcast allotment proceedings). See *Electronic Filing of Documents in Rule Making Proceedings*, GC Docket No. 97-113 (rel. April 6, 1998). Filings by paper can be sent by hand or messenger delivery, by commercial overnight courier, or by first-class or overnight

U.S. Postal Service mail. The Commission's contractor, Natek, Inc., will receive hand-delivered or messenger-delivered paper filings for the Commission's Secretary at 236 Massachusetts Avenue, NE., Suite 110, Washington, DC 20002. The filing hours at this location are 8 a.m. to 7 p.m. All hand deliveries must be held together with rubber bands or fasteners. Any envelopes must be disposed of before entering the building. Commercial overnight mail (other than U.S. Postal Service Express Mail and Priority Mail) must be sent to 9300 East Hampton Drive, Capitol Heights, MD 20743. NATIONAL AERONAUTICS AND SPACE ADMINISTRATION**48 CFR Parts 1835 and 1852**

RIN 2700-AC64

Research and Development Abstracts

AGENCY: National Aeronautics and Space Administration (NASA).

ACTION: Proposed rule.

SUMMARY: This is a proposed rule to amend the NASA FAR Supplement (NFS) to include a requirement for the electronic submission of abstracts of the planned research to be conducted under contracts containing research and development (R&D) effort valued at over \$25,000. This requirement is being established to support NASA's implementation of section 207(g) of the E-Government Act of 2002 that mandates the development and maintenance of a repository that integrates information on research and development funded by the Federal Government. This proposed rule would help improve access to information on NASA funded research and development activities, thus providing public and private research managers improved capability for R&D program planning.

DATES: Comments should be submitted on or before December 30, 2003.

ADDRESSES: Interested parties should submit written comments to Thomas Sauret, NASA Headquarters, Office of

Procurement, Contract Management Division (Code HK), Washington, DC 20546. Comments may also be submitted by e-mail to:

Thomas.E.Sauret@nasa.gov.

Comments that concern information collection requirements must be sent to the Office of Management and Budget at the address listed in the Paperwork Reduction Act section of this document. A copy of those comments may also be sent to the Agency representative named in the preceding paragraph.

FOR FURTHER INFORMATION CONTACT:

Thomas Sauret, Code HK, (202) 358-1068, e-mail:

Thomas.E.Sauret@nasa.gov.

SUPPLEMENTARY INFORMATION:**A. Background**

This proposed rule would add a new section 1835.003-70, NASA Research and Development (R&D) Abstracts, and a related clause, 1852.235-75, NASA Research and Development (R&D) Abstracts. The new clause provides for the collection of abstracts or summaries for NASA funded awards with R&D effort greater than \$25,000. The requirements of section 207(g) of the E-Government Act of 2002 (Pub. L. 107-347) provide the basis for this change. Section 207(g) mandates the development and maintenance of a repository that integrates information on research and development funded by the Federal Government. In furtherance of that requirement, NASA has developed a Web-based database system to collect summaries or abstracts for all the Agency's procurements containing research and development effort valued over \$25,000. For procurements that include a combination of R&D with other types of services and supplies, submission of an abstract would be required only when the value of the R&D portion of the acquisition exceeds \$25,000. A NASA Web site (Abstract Collection and Transmittal System (ACTS), <http://proposals.hq.nasa.gov/acts/>) has been established for recipients of NASA R&D contracts to enter their abstract data. ACTS will transfer submitted abstracts to a government-wide database sponsored by the National Science Foundation (NSF). The NSF sponsored government-wide database is available to other agencies and to the public. NASA's ACTS database is designed only as a collection and transmittal tool and will not be open to the general public.

B. Regulatory Flexibility Act

This proposed rule is not expected to have a significant economic impact on a substantial number of small business

entities within the meaning of the Regulatory Flexibility Act (5 U.S.C. 601, et. seq.), because the administrative costs associated with the one time submission of the R&D abstract is not expected to exceed the micro-purchase threshold and should be included in the contract price.

C. Paperwork Reduction Act of 1995

This proposed rule contains information collection requirements. As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507 (d)), NASA has submitted a copy of the information collection requirements to the Office of Management and Budget (OMB) for its review and approval. OMB is required to make a decision concerning the collection of information contained in these proposed regulations between 30 and 60 days after publication of this document in the **Federal Register**. Therefore, a comment to OMB regarding this information collection is best assured of having its full effect if OMB receives it within 30 days of publication of this notice. This does not affect the deadline for the public to comment on the proposed regulations. All comments regarding this information collection should be sent to: Desk Officer for NASA; Office of Information and Regulatory Affairs, Office of Management and Budget, Room 10236, New Executive Office Building; Washington, DC 20503.

Collection of Information: NASA Research and Development Abstracts Collection

The public reporting and recordkeeping burden for this collection of information is estimated to be 1,500 hours. The estimated burden has been calculated as follows:

Responses	3000
Hours per response	× 0.5 (30 min.)
Annual reporting burden.	1500 hours

The estimated number of responses shown above is the total number of NASA research-related contracts awards, as well as awards made through grants and agreements. This estimate reflects the combined paperwork clearance request the Agency is submitting to OMB.
