DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. ER03-114-000]

Great Bay Power Marketing, Inc.; Notice of Issuance of Order

June 25, 2008.

Great Bay Power Marketing, Inc. (GBPM) filed an application for market-based rate authority, with an accompanying tariff. The proposed market-based rate tariff provides for the sale of capacity and energy at market-based rates. GBPM also requested waivers of various Commission regulations. In particular, GBPM requested that the Commission grant blanket approval under 18 CFR Part 34 of all future issuances of securities and assumptions of liability by GBPM.

On December 3, 2002, pursuant to delegated authority, the Director, Division of Tariffs and Market Development-South, granted the requests for blanket approval under Part 34 (Director's Order). The Director's Order also stated that the Commission would publish a separate notice in the **Federal Register** establishing a period of time for the filing of protests. Accordingly, any person desiring to be heard concerning the blanket approvals of issuances of securities or assumptions of liability by GBPM, should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure. 18 CFR 385.211, 385.214 (2004). The Commission encourages the electronic submission of protests using

the FERC Online link at <http://www.ferc.gov>.

Notice is hereby given that the deadline for filing protests is July 8, 2008.

Absent a request to be heard in opposition to such blanket approvals by the deadline above, GBPM is authorized to issue securities and assume obligations or liabilities as a guarantor, indorser, surety, or otherwise in respect of any security of another person; provided that such issuance or assumption is for some lawful object within the corporate purposes of GBPM, compatible with the public interest, and is reasonably necessary or appropriate for such purposes.

The Commission reserves the right to require a further showing that neither public nor private interests will be adversely affected by continued approvals of GBPM's issuance of securities or assumptions of liability.

Copies of the full text of the Director's Order are available from the Commission's Public Reference Room, 888 First Street, NE., Washington, DC 20426. The Order may also be viewed on the Commission's Web site at <http://www.ferc.gov>, using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. Comments, protests, and interventions may be filed electronically via the internet in lieu of paper. See 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

Kimberly D. Bose,
Secretary.

Federal Energy Regulatory Commission

[Docket No. AD08-5-000]

Compliance Workshop; Second and Final Notice of Workshop on Regulatory Compliance

June 25, 2008.

As noticed in the "First Notice of Workshop on Regulatory Compliance," the staff of the Federal Energy Regulatory Commission (Commission) will hold a workshop on July 8, 2008, in the Commission Meeting Room at the Commission's Washington, DC headquarters, 888 First Street, NE. Please note that the starting and ending

times of the conference have been changed to provide further opportunity for discussion. The workshop will now begin at 9 a.m. and end at 1 p.m. Eastern Daylight time. This workshop will provide a forum for interested participants to share perspectives and information on federal energy regulatory compliance. The workshop will focus, in particular, on the elements of a sound compliance program. One or more of the Commissioners may attend the workshop.

As indicated in the previous notice, issued May 21, 2008, this notice provides more information on the format of the workshop and the topics to be explored. For this information, please see the attached Agenda and the detailed panel descriptions below.

The workshop will consist of two panels, which will be introduced and moderated by Commission staff. The first panel, entitled "Designing and Developing a Compliance Program," will include executives from three companies, two that are currently in the process of designing FERC-related compliance programs for their respective companies and one who is from a consulting firm that specializes in assisting energy firms to develop effective compliance programs. These panelists' presentations may address the following topics:

- Identifying and prioritizing risks;
- Integrating FERC compliance with other regulatory requirements (e.g., Securities and Exchange Commission, Commodity Futures Trading Commission, Department of Justice, and Federal Trade Commission);
- Developing an appropriate organizational structure that ensures the independence of compliance personnel;
- Tying management and employee incentives/compensation to achieving certain compliance targets;
- Developing a training program and manuals that address the applicable Commission requirements;
- Designing recordkeeping and retention policies;
- Establishing accountability/reporting systems;
- Committing adequate resources to compliance (i.e. funding and personnel); and,
- Other topics as identified by the panelists or the audience.

The second panel, entitled "Implementing and Maintaining a Compliance Program," will include compliance officers from three companies that represent the gas, electric, and financial industries. These compliance officers have been involved in the implementation and maintenance of FERC-related compliance programs at
