Description

In 1943, human remains representing, at minimum, one individual were

removed from Amchitka Island, AK, (catalogue number: 1961.56.8). The collector removed these human remains while stationed at a now-abandoned nuclear test site on Amchitka Island, in the Aleutian Islands, and subsequently donated them to the Kansas City Museum. The human remains—a jawbone fragment without teeth and a jawbone fragment with a single tooth—belong to an individual of unknown age and sex. The one associated funerary object is a faunal tooth, possibly from a bear.

Cultural Affiliation

The human remains and associated funerary objects in this notice are connected to one or more identifiable earlier groups, tribes, peoples, or cultures. There is a relationship of shared group identity between the identifiable earlier groups, tribes, peoples, or cultures and one or more Indian Tribes or Native Hawaiian organizations. The following types of information were used to reasonably trace the relationship: geographical, historical, and expert opinion.

Determinations

Pursuant to NAGPRA and its implementing regulations, and after consultation with the appropriate Indian Tribes and Native Hawaiian organizations, the Kansas City Museum has determined that:

- The human remains described in this notice represent the physical remains of one individual of Native American ancestry.
- The one object described in this notice is reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony.
- There is a relationship of shared group identity that can be reasonably traced between the human remains and associated funerary object described in this notice and the Native Village of Atka.

Requests for Repatriation

Written requests for repatriation of the human remains and associated funerary objects in this notice must be sent to the Responsible Official identified in **ADDRESSES**. Requests for repatriation may be submitted by:

1. Any one or more of the Indian Tribes or Native Hawaiian organizations identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that the requestor is a lineal descendant or

a culturally affiliated Indian Tribe or Native Hawaiian organization.

Repatriation of the human remains and associated funerary objects in this notice to a requestor may occur on or after July 10, 2023. If competing requests for repatriation are received, the Kansas City Museum must determine the most appropriate requestor prior to repatriation. Requests for joint repatriation of the human remains and associated funerary objects are considered a single request and not competing requests. The Kansas City Museum is responsible for sending a copy of this notice to the Indian Tribe identified in this notice.
