#### **SUPPLEMENTARY INFORMATION:**

#### **I. What Information is EPA Particularly Interested in?**

Pursuant to section 3506(c)(2)(A) of the PRA, EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility.
2. Evaluate the accuracy of the Agency's estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
3. Enhance the quality, utility, and clarity of the information to be collected.
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses. In

particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of specific additional efforts that EPA could make to reduce the paperwork burden for very small businesses affected by this collection.

#### **II. What Should I Consider when I Prepare My Comments for EPA?**

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible and provide specific examples.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Offer alternative ways to improve the collection activity.
7. Make sure to submit your comments by the deadline identified under **DATES**.
8. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

#### **III. What Information Collection Activity or ICR Does this Action Apply to?**

*Affected entities:* Entities potentially affected by this action are registrants of pesticide products under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The North American Industrial Classification System (NAICS) code for respondents under this ICR is 325320 (pesticides and other agricultural chemical manufacturing).

*Title:* Compliance Requirement for Child-Resistant Packaging.

*ICR numbers:* EPA ICR No. 0616.09, OMB Control No. 2070-0052.

*ICR status:* This ICR is currently scheduled to expire on August 31, 2007. An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA

regulations is consolidated in 40 CFR part 9.

*Abstract:* This information collection program is designed to provide EPA with assurances that the packaging of pesticide products sold and distributed to the general public in the United States meets standards set forth by the Agency pursuant to FIFRA, and is thereby protective of children. Registrants must certify to the Agency that the packaging or device meets these standards. There are no forms associated with this information collection activity.

*Burden statement:* The annual public reporting and recordkeeping burden for this collection of information is estimated to average 4.9 hours per response. EPA estimates that 703 responses will be received per year for a total annual burden of 3,473 hours, at a cost of \$193,567. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal Agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of this estimate, which is only briefly summarized here:

*Estimated total number of potential respondents:* 703 per year.

*Frequency of response:* On occasion.

*Estimated total average number of responses for each respondent:* One.

*Estimated total annual burden hours:* 3,473 hours.

*Estimated total annual costs:* \$193,567. This cost is entirely from the burden hours. No costs are expected for capital investment or maintenance and operational costs.

#### **IV. Are There Changes in the Estimates from the Last Approval?**

There is no change in the number of respondents (703 per year) projected to participate in the program over the next three years. However, the total burden hours per respondent for compliance with the child-resistant packaging (CRP) requirements increased from 3 hours to 4.9 hours at a total cost of about \$275 per response. The estimated annual

burden under the last ICR approval was 2,109 hours. Under this ICR renewal, the annual burden is estimated to be 3,473 hours. The increased burden of 1,364 hours represents an adjustment to the burden estimate.

#### V. What is the Next Step in the Process for this ICR?

EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the person listed under **FOR FURTHER INFORMATION CONTACT**.
