Full Text of Announcement

I. Funding Opportunity Description

Purpose Of Program: The purpose of the Technology and Media Services for Individuals With Disabilities—Television Access competition is to: (1) Improve results for children with disabilities by promoting the development, demonstration, and use of technology; (2) support educational media activities designed to be of educational value to children with disabilities; (3) provide support for some captioning and video description; and (4) provide cultural experiences through appropriate nonprofit organizations.

Priority: In accordance with 34 CFR 75.105(b)(2)(iv), this priority is from allowable activities specified in the statute (see sections 661(e)(2) and 687 of the Individuals with Disabilities Education Act, as amended (IDEA)).

Absolute Priority: For FY 2004 this priority is an absolute priority. Under 34 CFR 75.105(c)(3), we consider only applications that meet this priority.

This priority is:

Technology and Media Services for Individuals With Disabilities—Television Access

Background: The Federal Communications Commission (FCC) is primarily responsible for implementing and monitoring the closed captioning requirements of the Telecommunications Act of 1996. In this Act, Congress generally requires that programming be captioned, regardless of distribution technology, to ensure access to persons with hearing disabilities.

In this Act, Congress recognized that, in some situations, requiring programming to be captioned might prove economically burdensome to video programming providers and owners. For this reason, Congress also authorized the FCC to adopt exemptions from the general captioning requirements for programs, and classes of programs, for which the FCC determines that the provision of captioning would be economically burdensome to the provider or owner of such programming. In addition, the FCC has promulgated rules for real-time captioning, which typically uses stenography but includes any methodology, to convert the entire audio portion of a live program to captions. For a fuller explanation of the FCC's requirements on captioning, please refer to <http://www.fcc.gov/cgb/consumerfacts/closedcaption.html>.

On July 21, 2000, the FCC also adopted rules to make television more accessible to people with visual disabilities by mandating that a certain amount of programming contain video description. However, in November 2002, a Federal court struck down these rules. Thus, FCC accessibility rules do not currently require video description.

Priority: Under this priority, which supports cooperative agreements, an applicant may address one or both of the following:

(a) Real-time captioning of locally produced news and public information television programming that, under the FCC's captioning requirements, is not required to be real-time captioned.

(b) Describing, or captioning and describing, widely available children's educational programs. Only children's educational programming that would not otherwise be captioned to meet the FCC's captioning requirements, or is specifically exempt from the FCC's captioning requirements, is eligible to be captioned.

A project must do the following:

(a) For children's educational programs, include criteria for selecting programs that have high educational

merit and take into account the preference of educators, students, and parents, and the diversity of the type of programming available.

(b) Identify and support a consumer advisory group, including parents and educators, which must meet at least annually.

(c) Use the expertise of this consumer advisory group to certify that each program captioned or described with project funds is educational, news, or informational programming. Following are examples of programming that is educational, news or informational:

(1) Children's programming that furthers the educational and informational needs of children, including the child's intellectual/cognitive or social/emotional needs (exception: Programs that contain adult content);

(2) News and news magazines (exception: entertainment news magazines); and

(3) Adult informational or documentary programs (exceptions: non-documentary feature films and television movies unless they are appropriate for use in the classroom; documentaries that profile entertainment personalities, or criminals).

(d) Identify the extent to which the programming is widely available.

(e) Identify the total number of program hours the project will make accessible and the cost per hour for description and for captioning.

(f) For each video program, identify the source of any private or other public support, and the projected dollar amount of that support, if any.

(g) Demonstrate the willingness of program providers or owners of programs to permit and facilitate the description or captioning of their programs.

(h) Provide assurances from program providers or owners of programs stating that programs made accessible under this project will air, and will continue to air, with descriptions and captions.

(i) Provide assurances from program providers or owners of programs stating that programs captioned under this project would not otherwise be captioned to meet the FCC's captioning requirements, or are specifically exempt from the FCC's captioning requirements.

(j) Implement procedures for monitoring the extent to which full accessibility is provided, and use this information to make refinements in project operations.

(k) Identify the anticipated shelf-life and range of distribution of the video programs that is possible without further costs to the project.

In addition, projects funded under this priority must—

(a) Budget for a two-day Project Directors' meeting in Washington, DC during each year of the project.

(b) If a project maintains a Web site, include relevant information and documents in an accessible form.

Competitive Preference Priority: Within this absolute priority, we give competitive preference to applications that address the following priority.

Under 34 CFR 75.105(c)(2)(i) we award up to an additional 20 points to an application, depending on the extent to which the application meets this priority.

This priority is:

Local News and Public Information Programs—In meeting this priority, the applicant:

(a) Must not have been a grantee or a subcontractor of a grantee under the Technology and Media Services for Individuals with Disabilities program during the prior fiscal year; and

(b) Will not use a subcontractor who was a grantee or a subcontractor of a grantee under this program during the current fiscal year.

Thus, an applicant meeting this competitive preference could receive a maximum possible score of 120 points.

Waiver Of Proposed Rulemaking: Under the Administrative Procedure Act (5 U.S.C. 553) the Department generally offers interested parties the opportunity to comment on proposed priorities. However, section 661(e)(2) of the IDEA makes the public comment requirements inapplicable to the priorities in this notice.

Program Authority: 20 U.S.C. 1487.

Applicable Regulations: The Education Department General Administrative Regulations (EDGAR) in 34 CFR parts 74, 75, 77, 79, 80, 81, 82, 84, 85, 86, 97, 98, and 99.

Note: The regulations in 34 CFR part 79 apply to all applicants except federally recognized Indian tribes.

Note: The regulations in 34 CFR part 86 apply to institutions of higher education only.
