Background**

DoD is amending the DFARS to add Lithuania as a qualifying country. A qualifying country is a country that has a reciprocal defense procurement agreement or memorandum of understanding with the United States in which both countries agree to remove discriminatory barriers to purchases of supplies produced in the other country or services performed by sources of the other country. The agreement or memorandum must comply, where applicable, with the requirements of section 36 of the Arms Export Control Act (22 U.S.C. 2776), which addresses reports and certifications to Congress on military exports, and with 10 U.S.C. 2457, which addresses standardization of equipment with North Atlantic Treaty Organization members. For purposes of the Buy American Act (DFARS 225.1) and the Balance of Payments Program (DFARS 225.75), supplies and components produced in qualifying countries are treated the same as supplies and components produced in the United States.

On December 13, 2021, the Secretary of Defense and the Ministry of National Defense of the Republic of Lithuania signed a Reciprocal Defense Procurement Agreement. The Secretary of Defense also signed, on that day, a determination and findings that it is inconsistent with the public interest to apply the restrictions of the Buy American Act to the acquisition of

articles, materials, and supplies produced or manufactured in the Republic of Lithuania. The Reciprocal Defense Procurement Agreement removes discriminatory barriers to procurements of supplies and services produced by industrial enterprises of Lithuania to the extent mutually beneficial and consistent with national laws, regulations, policies, and international obligations. This agreement does not cover construction or construction material. Lithuania is already a designated country under the World Trade Organization Government Procurement Agreement.

II. Publication of This Final Rule for Public Comment Is Not Required by Statute

The statute that applies to the publication of the Federal Acquisition Regulation (FAR) is 41 U.S.C. 1707, Publication of Proposed Regulations. Subsection (a)(1) of the statute requires that a procurement policy, regulation, procedure, or form (including an amendment or modification thereof) must be published for public comment if it relates to the expenditure of appropriated funds, and has either a significant effect beyond the internal operating procedures of the agency issuing the policy, regulation, procedure, or form, or has a significant cost or administrative impact on contractors or offerors. This final rule is not required to be published for public comment, because it does not constitute a significant DFARS revision within the meaning of FAR 1.501–1 and does not have a significant cost or administrative impact on contractors or offerors. Lithuania is added to the list of 27 other countries that have similar reciprocal defense procurement agreements with DoD. These requirements affect only the internal operating procedures of the Government.

III. Applicability to Contracts at or Below the Simplified Acquisition Threshold (SAT), for Commercial Products Including Commercially Available Off-the-Shelf (COTS) Items, and for Commercial Services

This rule only updates the list of qualifying countries in the DFARS by adding the newly qualifying country of Lithuania. The definition of “qualifying country” is updated in each of the following clauses: DFARS 252.225–7001, Buy American and Balance of Payments Program; DFARS 252.225–7002, Qualifying Country Sources as Subcontractors; DFARS 252.225–7012, Preference for Certain Domestic Commodities; DFARS 252.225–7017, Photovoltaic Devices; DFARS 252.225–

7021, Trade Agreements; and DFARS 252.225–7036, Buy American-Free Trade Agreements-Balance of Payments Program. However, this rule does not change the clause prescriptions or applicability to contracts at or below the SAT, for commercial products including COTS items, or for commercial services.

IV. Executive Orders 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993.

V. Congressional Review Act

As required by the Congressional Review Act (5 U.S.C. 801–808) before an interim or final rule takes effect, DoD will submit a copy of the interim or final rule with the form, Submission of Federal Rules under the Congressional Review Act, to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States. A major rule under the Congressional Review Act cannot take effect until 60 days after it is published in the **Federal Register**. The Office of Information and Regulatory Affairs has determined that this rule is not a major rule as defined by 5 U.S.C. 804.

VI. Regulatory Flexibility Act

The Regulatory Flexibility Act does not apply to this rule because this final rule does not constitute a significant DFARS revision within the meaning of FAR 1.501–1, and 41 U.S.C. 1707 does not require publication for public comment.

VII. Paperwork Reduction Act

The Paperwork Reduction Act (44 U.S.C. chapter 35) applies to this rule. However, these changes to the DFARS do not impose additional information collection requirements to the paperwork burden previously approved under Office of Management and Budget (OMB) Control Number 0704–0229, entitled “DFARS Part 225, Foreign Acquisition.”
