

sufficiency of supply as soon as the statutory conditions are satisfied.

DOE must issue a new certification on or before January 2, 2022. In accordance with AMIPA and to ensure public review and comments, the development of the certification is being announced in the **Federal Register**.

II. Issues on Which DOE Seeks Comment and Information

DOE is seeking information from interested parties on the status of Mo-99 supplies for U.S. patients. DOE requests that commenters fully explain any assumptions that underlie their reasoning. DOE also requests that commenters provide underlying data or other information sufficient to allow DOE to review and verify any of the assumptions, calculations, or views expressed by the commenters. DOE specifically invites responses to the following questions:

(1) Do current supplies of Mo-99 meet U.S. patient demand?

(2) Do current supplies of non-HEU based Mo-99 meet U.S. patient demand?

(3) Since the publication of DOE's November 27, 2019 **Federal Register** notice requesting public comment on the status of Mo-99 supplies for U.S. patients (84 FR 65378) have there been shortages of Mo-99 in the United States? If so, how severe, how often, and how did shortages impact patient care? What caused such shortages?

(4) How would extending the period that the NRC may issue HEU export licenses for medical isotope production impact the supply of Mo-99 in the United States?

(5) How would enacting a ban on the export of HEU for medical isotope production impact the supply of Mo-99 in the United States?

In addition, DOE welcomes information on other topics that interested parties consider significant in preparing for the Secretarial certification.

Confidential Business Information: According to 10 CFR 1004.11, any person submitting information he or she believes to be confidential and exempt from public disclosure should submit via email two well-marked copies: One copy of the document marked "confidential" including all the information believed to be confidential, and one copy of the document marked "non-confidential" with the information believed to be confidential deleted. DOE will make its own determination about the confidential status of the information and treat it according to its determination.

Signing Authority

This document of the Department of Energy was signed on September 29, 2021, by Kasia Mendelsohn, Acting Deputy Administrator for Defense Nuclear Nonproliferation, pursuant to delegated authority from the Secretary of Energy.
