Petition for Exemption

Docket No.: FAA-2020-0429

Petitioner: Airlines for America

Section(s) of 14 CFR Affected:

§§ 91.9(a) and (b), 121.153(a),

121.337(b)(9)(iii)

Description of Relief Sought: Airlines for America petitions for a one-year extension of FAA Exemption No. 18561A that is set to terminate on July 10, 2021. That exemption permits relief from 14 CFR 91.9(a) and 121.153(a)(2) and allows member airlines to transport cargo, subject to the FAA's conditions, on passenger seats of transport category airplanes when no revenue passengers are being transported. Due to the ongoing reduction in demand, passenger carriers continue to have the capacity to carry cargo, including critical medical cargo, in cabin. Approval of the petition would allow operators of passenger airplanes to support COVID-19 response efforts by continuing to carry cargo in-cabin, including critical medical cargo.

The collection involves the gathering of information necessary for FAA to ensure proposed outdoor laser operations will not interfere with air traffic operations. Title: Notice of Proposed Outdoor Laser Operation(s).

Form Numbers: FAA Form 7140-1.

Type of Review: Renewal of an information collection.

Background: The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on January 29, 2021 (86 FR 7611).

No laser light show, projection system, or device may vary from compliance with 21 CFR 1040.11(c) in design or use without the approval of an application for variance in accordance with 21 CFR 1010.4. Those applying for an FDA variance (using and per FDA Form 3147), must make advance written notification as early as possible to FAA for any projections into open airspace at any time. To notify FAA of a proposed outdoor laser operation, proponents complete and submit FAA Form 7140-1, Notice of Proposed Outdoor Laser Operation(s), to FAA. FAA Form 7140-1 is the approved method for collecting information required to process submissions from proponents intending to project into open airspace.

FAA received one comment from two contributing authors. The comment supported past changes made to the technical aspects of FAA Form 7140-1 and raised multiple points with suggestions to improve, notably: Defining regulatory authority, when to submit a form, combining the form within another document, and clarifying language on the form. FAA appreciates the time taken by the authors to comment, acknowledges the suggestions, and intends to revise FAA Form 7140-1 to improve clarity.

Respondents: Approximately 603 laser operations.

Frequency: One time per laser operation.

Estimated Average Burden per Response: Approximately 240 minutes or 4 hours per form.

Estimated Total Annual Burden: Approximately 2,412 hours.

Issued in Washington, DC, on April 15, 2021.

George Gonzalez,

Acting Manager, Rules and Regulations Group.
