

The fact sheet for the permit is provided for download concurrently with the permit and provides detailed information on the methodology used to develop effluent limitations, the specific geographic areas covered by the permits, monitoring schedules, inspection requirements, major changes from previous permit and other regulatory decisions or requirements in the permit.

## II. Summary of Permit Coverage

The DWGP (permit numbers: CODWXXXX@, MTDWXXXX@, NDDWXXXX@, SDDWXXXX@, UTDWXXXX@, WYXXXX@) provides coverage for drinking water treatment facilities in EPA Region 8 that discharge process wastewater to waters of the United States in Indian Country and Lands of Exclusive Federal Jurisdiction within the meaning of 18 U.S.C. 1151. A full description of the geographic scope of coverage is included in the public notice version of the permit.

The DWGP provides coverage for discharges of wastewater from drinking water treatment processes. Process flows contributing to the wastewater discharge include: filter backwash, filter to waste, decanted lime sludge dewatering, influent screen backwash and/or miscellaneous wastewater sources associated with drinking water facility operation. Miscellaneous wastewater sources may include, but are not limited to: processed potable water, disinfection of treatment plant pipelines and tanks, and overflow from holding tanks of treated water.

The EPA has identified drinking water treatment processes methods that do not qualify for coverage under the DWGP. The processes wastewaters not included in this general permit include: batch regenerated potassium permanganate iron removal, sodium zeolite softening, nano filtration and reverse osmosis.

The DWGP contains two sets of effluent limitations: primary effluent limitations that apply to all discharges, and supplemental effluent limitations that will apply to discharges on an individual basis as necessary to protect water quality. The effluent limitations were derived from technology based and water quality based effluent limitations as described in the fact sheet. The EPA will review a facility's Notice of Intent (NOI) to be covered under the DWGP and determine the need for implementation of the supplemental effluent limitations and corresponding self-monitoring requirements. The permittee will be notified of the applicable effluent limitations and monitoring requirements in the notification of coverage.

The following Tribes in EPA Region 8 have Clean Water Act (CWA) section 401(a)(1) certification authority: the Assiniboine & Sioux Tribes, the Confederated Salish & Kootenai Tribes, the Northern Cheyenne Tribe, the Ute Mountain Ute Tribe, and the Southern Ute Indian Tribe. The EPA has requested certification from each of these Tribes that the DWGP complies with the applicable provisions of the CWA and their respective Tribal water quality standards.

## III. Other Legal Requirements

*Economic Impact (Executive Order 12866):* The EPA Office of Policy has determined that the issuance of these general permits is not a "significant regulatory action" under the terms of Executive Order 12866 (58 FR 51735 (October 4, 1993)) and is therefore not subject to formal Office of Management and Budget (OMB) review prior to proposal.

*Paperwork Reduction Act (PRA):* EPA has reviewed the requirements imposed on regulated facilities in these proposed general permits under the PRA of 1980, 44 U.S.C. 501, *et seq.* The information collection requirements of these permits have already been approved by the OMB in submissions made for the NPDES permit program under the provisions of the CWA.

*Unfunded Mandates Reform Act (UMRA):* Section 201 of the UMRA, Public Law 104-4, generally requires federal agencies to assess the effects of their "regulatory actions" defined to be the same as "rules" subject to the Regulatory Flexibility Act (RFA) on Tribal, state, local governments and the private sector. Since the permit proposed is an adjudication, it is not subject to the RFA and is therefore not subject to the requirements of the UMRA.

*Authority:* Clean Water Act, 33 U.S.C. 1251, *et seq.*

### I. 60-Day Comment Period

FMCS published a **Federal Register** notice, with a 60-day public comment period soliciting comments, of the

following collection of information on March 14, 2025, 90 FR 12161. FMCS received no comments.

### II. Request for Comments

FMCS solicits comments to:

- i. Evaluate whether the proposed collections of information are necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- ii. Enhance the accuracy of the agency's estimates of the burden of the proposed collection of information.
- iii. Enhance the quality, utility, and clarity of the information to be collected.
- iv. Minimize the burden of the collections of information on those who are to respond, including the use of appropriate automated, electronic collection technologies or other forms of information technology.

### III. Information Collection Request

*Agency:* Federal Mediation and Conciliation Service.

*Title:* Stakeholder Survey for Qualitative Feedback on Agency Service Delivery.

*OMB Number:* 3076-0017.

*Type of Request:* Revision of a currently approved collection.

*Affected Public:* Federal government and Private Sector, to include businesses or other for-profits and not-for-profit institutions, and State and local governments.

*Frequency:* Annually.

*Burden:* The total annual burden estimate is that FMCS will receive approximately 1,213 responses per year that will take about 3 minutes to complete.

### Information Collection Requirement

#### Purpose and Description of Data Collection

This information collection provides a means to garner qualitative client and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. This feedback will provide insights into client or stakeholder perceptions, experiences, and expectations. The surveys will provide notice of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services.

#### Use of Results

The surveys are not statistical surveys that yield quantitative results that can be generalized to the population of study. These collections will allow for

ongoing, collaborative, and actionable communication between the Agency and its clients and stakeholders. It will also allow feedback to contribute directly to improving program management. Responses will be assessed to plan and inform efforts to improve or maintain the quality of service offered to the public. Collecting this information is critical for ensuring quality service offered to the public.

### IV. The Official Record

The official records are electronic records.

Dated: May 29, 2025.
