

management in new development and redevelopment; and good housekeeping in municipal operations.

Implementation of the SWMP involves the identification of BMPs and measurable goals for BMPs. The draft permit identifies an objective for each control measure.

EPA is soliciting public comments on the issues discussed in this notice or on other relevant matters. The public comment process and the public hearing will be conducted in accordance with 40 CFR 124, EPA's Procedures for Decisionmaking. EPA will consider and respond to all significant comments before taking final action. All persons, including applicants, who believe any condition of the draft permit is inappropriate must raise all reasonably ascertainable issues and submit all reasonably available arguments supporting their position by the close of the public comment period, either by submitting written comments to the EPA New England Regional Office listed in the **ADDRESSES** section of this **Federal Register**, or by submitting written or oral comments at the public hearing. Any supporting materials which are submitted shall be included in full and may not be incorporated by reference, unless they are already part of the administrative record in this proceeding, or consist of State or Federal statutes and regulations, EPA documents of general applicability, or other generally available reference materials.

Other Legal Requirements

A. Endangered Species Act

The provisions related to the ESA have not been changed from those in the 2008 draft permit. However, the Atlantic Sturgeon (*Acipenser oxyrinchus*) has been added to the list of species of concern for this draft permit. EPA requested concurrence from the appropriate Federal services (U.S. Fish and Wildlife Service and National Marine Fisheries Service) in connection with the 2008 draft and has renewed this request for the new Draft Permit.

B. Executive Order 12866

EPA has determined that this general permit is not a "significant regulatory action" under the terms of Executive Order 12866 and is therefore not subject to OMB review.

C. Paperwork Reduction Act

The information collection requirements of this permit were previously approved by the Office of Management and Budget (OMB) under the provisions of the Paperwork

Reduction Act, 44 U.S.C. 3501 et seq., and assigned OMB control number 2040-0004.

D. Regulatory Flexibility Act

The Regulatory Flexibility Act (RFA), 5 U.S.C. 601 et seq., requires that EPA prepare a regulatory flexibility analysis for rules subject to the requirements of 5 U.S.C. 553(b) that have a significant impact on a substantial number of small entities. However, general NPDES permits are not "rules" subject to the requirements of 5 U.S.C. 553(b) and are therefore not subject to the RFA.

E. Unfunded Mandates Reform Act

Section 201 of the Unfunded Mandates Reform Act (UMRA), Public Law 104-4, generally requires Federal agencies to assess the effects of their "regulatory actions" (defined to be the same as "rules" subject to the RFA) on tribal, state, and local governments and the private sector. However, general NPDES permits are not "rules" subject to the requirements of 5 U.S.C. 553(b) and are therefore not subject to the RFA or the UMRA.

Authority: This action is being taken under the Clean Water Act, 33 U.S.C. 1251 et seq.

non-compliant devices from being distributed to the general public, thereby reducing the potential for harmful interference being caused to authorized communications.
