DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket No. FEMA-B-7720]

Proposed Flood Elevation Determinations

AGENCY: Federal Emergency
Management Agency, DHS.

ACTION: Proposed rule.

SUMMARY: Technical information or
comments are requested on the

proposed Base (1% annual chance)
Flood Elevations (BFEs) and proposed
BFEs modifications for the communities
listed below. The BFEs are the basis for
the floodplain management measures
that the community is required either to
adopt or to show evidence of being
already in effect in order to qualify or
remain qualified for participation in the
National Flood Insurance Program
(NFIP).

DATES: The comment period is ninety
(90) days following the second
publication of this proposed rule in a
newspaper of local circulation in each
community.

ADDRESSES: The proposed BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: William R. Blanton, Jr., Engineering Management Section, Mitigation Directorate, Federal Emergency Management Agency, 500 C Street, SW., Washington, DC 20472, (202) 646-3151.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) proposes to make determinations of BFEs and modified BFEs for each community listed below, in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR 67.4(a).

These proposed BFEs and modified BFEs, together with the floodplain management criteria required by 44 CFR 60.3, are the minimum that are required. They should not be construed to mean that the community must change any existing ordinances that are more stringent in their floodplain management requirements. The

community may at any time enact stricter requirements of its own, or pursuant to policies established by other Federal, State or regional entities. These proposed elevations are used to meet the floodplain management requirements of the NFIP and are also used to calculate the appropriate flood insurance premium rates for new buildings built after these elevations are made final, and for the contents in these buildings.

National Environmental Policy Act. This proposed rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Consideration. An environmental impact assessment has not been prepared.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601-612, a regulatory flexibility analysis is not required.

Regulatory Classification. This proposed rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This proposed rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This proposed rule meets the applicable standards of Executive Order 12988.

List of Subjects in 44 CFR Part 67

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Accordingly, 44 CFR part 67 is proposed to be amended as follows:

PART 67—[AMENDED]

1. The authority citation for part 67 continues to read as follows:

Defense Federal Acquisition Regulation Supplement; Waiver of Specialty Metals Restriction for Acquisition of Commercially Available Off-the-Shelf Items (DFARS Case 2007-D013)

AGENCY: Defense Acquisition Regulations System, Department of Defense (DoD).

ACTION: Proposed rule with request for comments.

SUMMARY: DoD is proposing to amend the Defense Federal Acquisition Regulation Supplement (DFARS) to waive application of 10 U.S.C. 2533b for acquisitions of commercially available off-the-shelf (COTS) items. 10 U.S.C. 2533b, established by section 842 of the National Defense Authorization Act for Fiscal Year 2007, places restrictions on the acquisition of specialty metals not melted or produced in the United States.

DATES: Comments on the proposed rule should be submitted in writing to the address shown below on or before August 1, 2007, to be considered in the formation of the final rule.

ADDRESSES: You may submit comments, identified by DFARS Case 2007-D013, using any of the following methods:

SUPPLEMENTARY INFORMATION:

A. Background

Section 842(a) of the National Defense Authorization Act for Fiscal Year 2007 (Pub. L. 109-364) establishes a new specialty metals domestic source restriction, which is codified at 10 U.S.C. 2533b. A proposed rule is being developed to comprehensively implement 10 U.S.C. 2533b in the DFARS. However, this proposed rule is being published separately in order to expedite the exercise of a statutory exception to the requirements of 10 U.S.C. 2533b for COTS items.

As defined in subsection (c) of 41 U.S.C. 431 (Section 35 of the Office of Federal Procurement Policy Act), "COTS item"—

- (i) Means any item of supply that is—
 - (A) A commercial item;
 - (B) Sold in substantial quantities in the commercial marketplace; and
 - (C) Offered to the Government, without modification, in the same form in which it is sold in the commercial marketplace; and
- (ii) Does not include bulk cargo, as defined in section 3 of the Shipping Act of 1984 (46 U.S.C. App. 1702), such as agricultural products and petroleum products.

41 U.S.C. 431(a) requires that the acquisition regulations list the provisions of law that are inapplicable to contracts and subcontracts for COTS items. Covered provisions of law must be included on that list unless the Administrator of the Office of Federal Procurement Policy (OFPP) makes a written determination that it would not be in the best interest of the United States to exempt such contracts from the applicability of that provision of law. Covered provisions of law are those that, as determined by OFPP, impose on contractors Government-unique policies, procedures, requirements, or restrictions, except for—

- A provision of law that provides for criminal or civil penalties; or
 - A provision of law that specifically refers to 41 U.S.C. 431, and states that the law is nevertheless applicable to COTS items.
- 10 U.S.C. 2533b does not provide for criminal or civil penalties; nor does it refer to 41 U.S.C. 431 and state that the law is nevertheless applicable to COTS items. Accordingly, this proposed rule—

- Creates a new DFARS section 212.570 to list 10 U.S.C. 2533b as

inapplicable to contracts and subcontracts for the acquisition of COTS items; and

- Includes acquisitions of COTS items containing specialty metals as an exception at DFARS 225.7002-2.

Exercise of this statutory COTS waiver is critical to DoD's access to the commercial marketplace. Manufacturers make component purchasing decisions based on factors such as cost, quality, availability, and maintaining the state of the art—not the country in which specialty metals in the components were melted. In addition, many commercial items commonly acquired in large quantities by DoD, such as computers, commercial-off-the shelf engines, and semi-conductors, may contain a small percentage of components made of specialty metals, subjecting the manufacturers to costly and burdensome, if not impossible, tracking requirements. Many manufacturers of COTS items are unwilling to change their existing processes, inventory systems, or facilities and incur the significant expense associated with tracking the sourcing of specialty metals in the components of a COTS item in order to generate sales to DoD, which typically represent a very small percentage of overall revenue for COTS items.

Section 2533b permits DoD to process a domestic non-availability determination, but such process poses difficulties for DoD in meeting mission-sensitive requirements in a timely manner. In order for DoD to be able to support a determination, a contractor must—

- (1) Work with its suppliers at every tier to identify non-compliant parts from among potentially hundreds of thousands of parts;

- (2) Determine that it cannot find a compliant source, either because lead times are longer than the contract permits, or because sufficient quantity is not available; and

- (3) Research whether and by when it can become compliant.

Once the information on noncompliant parts and their nonavailability is provided to DoD, the Department must conduct a validation review and develop a report to document the determination. All of these efforts taken together may entail thousands of hours of work, at considerable cost to the taxpayer, and a significant addition in lead time to the acquisition cycle.

For all of these reasons, an exemption from 10 U.S.C. 2533b for COTS items is in the best interest of the Government.

This rule was not subject to Office of Management and Budget review under
