DEPARTMENT OF JUSTICE

[AAG/A Order No. 192-2000]

Privacy Act of 1974; System of Records

AGENCY: Department of Justice.

ACTION: Notice of a Modified System of Records.

SUMMARY: Under the provisions of the Privacy Act of 1974 (5 U.S.C. 552a), the Environment and Natural Resources Division, Department of Justice, proposes to modify a system of records last published in the **Federal Register** on December 11, 1987 (52 FR 47274), and entitled, "Lands Docket Tracking System (JUSTICE/LDN-003)." The Division proposes these modifications because the Lands Docket Tracking System has been replaced by a successor case management and tracking system and it did not include the broader category of the Division's case-related files.

Specifically, the Division will modify the system notice by renaming it, "Environment and Natural Resources Division Case and Related Files System (JUSTICE/ENDR-003)"; revising the category of records covered by the system (adding case files and attorney

and employee timekeeping files); revising the description of the case tracking system to reflect new and successor programs; adding routine uses for the new category of records (primarily relating to the management and handling of case files during investigation and litigation, and to public access to the records pursuant to federal statutes or regulations); deleting and revising routine uses to provide clarity and additional specificity; revising the categories of records to show that the system contains national security, civil investigatory and criminal law enforcement information; and indicating that a rule has been promulgated to exempt the system from certain Privacy Act provisions. Because of the number of changes made and for public convenience, the revised system notice has been printed below in full, replacing the previous notice in its entirety. The exemption of this system is more fully described in the Proposed Rules Section of today's **Federal Register**.

Section 552a(e)(4) and (11) of the Privacy Act require that the public be given 30 days to comment on new routine uses of information in the system. The Office of Management and Budget (OMB), which has oversight responsibility under the Act, requires 40 days to review the proposed new routine uses and exemptions for the system. Therefore, the public, OMB, and the Congress are invited to submit written comments by April 3, 2000.

DATES: The proposed modifications to the System of Records will be effective April 3, 2000, unless comments are received that result in a contrary determination.
