

3. Revised Instructions for Reference Letters

NIH proposes to update the instructions for reference letters with more structure so that the resulting letters better assist reviewers in understanding the applicant's strengths, weaknesses, and potential to pursue a productive career in biomedical science. Writers would be instructed to respond to four questions addressing:

1. Two to four most important characteristics that will contribute to applicant's success.
2. Two to four areas of needed growth.
3. Intellectual contributions made by the applicant during training.
4. Overall assessment of readiness and potential.

4. Allow an Optional Statement of Special Circumstance

NIH recommends allowing fellowship applicants to submit an *optional* Statement of Special Circumstance to address situations that may have hindered the trainee's progress, such as harassment, the COVID-19 pandemic, or other personal or professional circumstances.

Additional detail on proposed changes to the Fellowship Supplement can be found at: <https://grants.nih.gov/policy/peer/improving-nrsa-fellowship/reviewer-instructions>.

Submitting a Response
