[Docket Number FRA-2013-0073]

Notice of Application for Approval of Discontinuance or Modification of a Railroad Signal System

In accordance with Part 235 of Title 49 Code of Federal Regulations (CFR) and 49 U.S.C. 20502(a), this document provides the public notice that by a document dated June 27, 2013, the Norfolk Southern Corporation (NS) petitioned the Federal Railroad Administration (FRA) seeking approval for the discontinuance or modification of a signal system. FRA assigned the petition Docket Number FRA-2013-0073.

Applicant: Norfolk Southern Corporation, Mr. Brian Sykes, Chief Engineer, C&S Engineering, 1200 Peachtree Street NE., Atlanta, Georgia 30309.

NS seeks approval of the proposed discontinuance of automatic signals within traffic control signal territory and the installation of a cab signal system without wayside signals, on Main Track Number 3 of the NS Pittsburgh Line from Milepost (MP) 273.2, SG, to MP 277.30 and from MP 277.30 to MP 290.6, CP-Conpit Junction. This section of track is also referred to as the "Sang Hollow Extension." All automatic signals on this line will be retired. The discontinuance will include the following automatic signals: SG 280.1, SG 282.95, and SG 287.1.

The reasons given for the proposed changes are that the installation of cab signals without wayside signals will improve train operations and will facilitate the installation of Positive Train Control on the Pittsburgh Line.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Avenue SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested party desires an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

[Docket Number FRA-2013-0057]

Petition for Waiver of Compliance

In accordance with Part 211 of Title 49 of the Code of Federal Regulations (CFR), this document provides the public notice that by documents dated May 28, 2013, and June 12, 2013, Steam Into History (Steam) has petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR Part 215-Railroad Freight Car Safety Standards. FRA assigned the petition Docket Number FRA-2013-0057.

Specifically, Steam seeks relief from 49 CFR 215.303-*Stenciling of restricted cars*, which requires that restricted railroad freight cars shall be stenciled or marked in clearly legible letters with the letter "R" and a series of designated terms to completely indicate the basis for the restricted operation of the car.

The petition concerns three leased and two owned freight cars, numbered RERX 101, 213, and 702 and NCR 150 and 840, which are railroad flat cars converted to passenger carriage cars for tourist and excursion railroad service by the addition of seating, superstructures, and steps. Each of the Steam freight cars in the present petition is more than 50 years old, measured from the date of original construction, and the freight cars are the subject of a parallel petition for special approval for continued operation under 215.203(c). Therefore, Steam seeks a waiver of the requirement for stenciling found in 215.303, as the
