

essential in determining compliance, and are required of all affected facilities subject to NESHAP.

Form Numbers: 5900–522.

Respondents/affected entities: Municipal solid waste (MSW) landfills.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subpart AAAA).

Estimated number of respondents: 1,169 (total).

Frequency of response: Annual, semi-annual.

Total estimated burden: 35,500 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,290,000 (per year), includes \$11,100 annualized capital or operation & maintenance costs.

Changes in the estimates: There is a small decrease in burden from the most recently approved ICR as currently identified in the OMB Inventory of Approved Burdens. This is due to several considerations. The regulations have been amended in the past three years. The March 26, 2020 amendments revised NESHAP Subpart AAAA, NSPS Subpart XXX and EG Subpart Cf to allow affected sources to demonstrate compliance with landfill gas control, operating, monitoring, recordkeeping, and reporting requirements by following the corresponding requirements in the MSW Landfills NESHAP, harmonizing the control requirements across all of the landfill rules. The 2020 amendments removed the SSM requirements from Subpart AAAA, resulting in a decrease in labor burden. The 2020 amendments added a new semiannual wet landfill monitoring report requirement, resulting in an increase in burden. Since the 2020 amendments also added an annual wet landfill monitoring report requirement to Subparts Cf and XXX, the additional burden to Subpart AAAA sources for this report consists of one additional report per year. The growth rate for this industry is low (two new landfills per year), resulting in a small increase in burden. There are no changes in the capital/startup or operation and maintenance (O&M) costs. The labor burden for re-familiarizing with the regulatory requirements each year was increased from 1 hour to 5 hours, so that the labor burden for this requirement is consistent with that of other NESHAPs. These changes resulted in a small decrease in labor burden (hours), and a small increase in labor costs, resulting

in a small increase in costs from the previous ICR.

Courtney Kerwin,

Director, Regulatory Support Division.
