Methidathion; Cancellation Order for Pesticide Registrations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's order for the cancellations, voluntarily requested by the registrants and accepted by the Agency, of products containing methidathion, pursuant to section 6(f)(1) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This cancellation order follows a April 7, 2010, **Federal Register** notice of receipt of requests from the registrants listed in Unit II., Table 2, of this notice, to voluntarily cancel these product registrations. These are the last products containing this pesticide registered for use in the United States. In the April 7, 2010 notice, EPA indicated that it would issue an order implementing the cancellations, unless the Agency received substantive comments within the 30 day comment period that would merit its further review of these requests, or unless the registrants withdrew their requests. The Agency did not receive any comments on the notice. Further, the registrants did not withdraw their requests. Accordingly, EPA hereby issues in this notice, a

cancellation order granting the requested cancellations. Any distribution, sale, or use of the products subject to this cancellation order is permitted only in accordance with the terms of this order, including any existing stock provisions.

DATES: The cancellations are effective December 30, 2012.

Draft Toxicological Review of Formaldehyde in Support of Summary Information on the Integrated Risk Information System (IRIS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of public comment period and listening session.

SUMMARY: EPA is announcing a 90-day public comment period and a public listening session for the external review draft human health assessment titled, "Toxicological Review of Formaldehyde Inhalation Assessment: In Support of Summary Information on the Integrated Risk Information System (IRIS)" (EPA/635/R-10/002C). The draft assessment was prepared by the National Center for Environmental Assessment (NCEA) within the EPA Office of Research and Development (ORD). EPA is releasing this draft assessment solely for the purpose of pre-dissemination peer review under applicable information quality guidelines. This draft assessment has not been formally disseminated by EPA. It does not represent and should not be construed to represent any Agency policy or determination. A committee of the National Research Council, acting under the auspices of National Academy of Sciences (NAS), will conduct an independent scientific peer review of the EPA draft human health assessment of formaldehyde. The peer review committee will hold meetings, some of which may involve public sessions. Public sessions will be announced before each meeting on the National Academies Web site (<http://www8.nationalacademies.org/cp/projectview.aspx?key=49207>). The public comment period and NAS scientific peer review are separate processes that provide opportunities for all interested parties to comment on the assessment. Due to the timing of the NAS peer review meetings, one or more NAS meetings may take place before the close of EPA's public comment period (see **DATES** below). For NAS meetings that occur during the public comment period, EPA will provide all public
