DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[Docket No. FAA-2007-28041]

Notice of Availability for the Final Air Quality General Conformity Determination (Final GCD) for Proposed Operations of Lynx Aviation, Inc. at Denver International Airport, Denver, CO

AGENCY: Federal Aviation Administration (FAA), Department of Transportation (DOT).

ACTION: Notice of availability of the Final Air Quality General Conformity Determination.

SUMMARY: Pursuant to Section 176 (c) of the Clean Air Act Amendments of 1990, the FAA announces the availability of the Final General Conformity Determination for Proposed Operations of Lynx Aviation, Inc. (Lynx), at Denver International Airport (DEN). FAA has determined that emissions from Lynx's operations at DEN conform to the applicable Colorado State Implementation Plans (SIPs).

In accordance with the requirements of 40 CFR § 93.156(b), FAA made the Draft Air Quality General Conformity Determination (Draft GCD) for Proposed Operations of Lynx Aviation, Inc., at Denver International Airport, Denver, CO available for public review beginning on July 20, 2007. FAA published notice of the draft determination in the "Rocky Mountain News," Denver, Colorado on July 20 and 21, 2007 and DEN made copies of the draft determination available at the airport. FAA published the Notice of Availability and Public Comment Period for the Draft General Conformity Determination in the **Federal Register** on July 20, 2007 (72 FR 39877).

FAA received one comment during the public comment period, which ended on August 20, 2007. The commenter stated that jet aviation activity results in excessive pollution and that there should be less aviation activity in general in the United States. The commenter did not provide comments specific to the Draft General Conformity Determination; therefore, a response to the comment is not necessary.

Consequently, the Final General Conformity Determination consists of the Draft General Conformity Determination, with two typographical corrections.
