

retain written swap trading relationship documentation. The regulations also establish requirements for SDs and MSPs regarding swap confirmation, portfolio reconciliation, and portfolio compression. Under the regulations, SDs and MSPs are obligated to maintain records of the policies and procedures required by the rules.⁷

Confirmation, portfolio reconciliation, and portfolio compression are important post-trade processing mechanisms for reducing risk and improving operational efficiency. The information collection obligations imposed by the regulations are necessary to ensure that each SD and MSP maintains the required records of their business activities and an audit trail sufficient to conduct comprehensive and accurate trade reconstruction. The information collections contained in the regulations are also essential to ensuring that SDs and MSPs document their swaps, reconcile their swap portfolios to resolve discrepancies and disputes, and wholly or partially terminate some or all of their outstanding swaps through regular portfolio compression exercises. The collections of information are mandatory.

On February 23, 2022, the Commission published in the **Federal Register** notice of the proposed extension of these information collections and provided 60 days for public comment on the proposed extension, 87 FR 10175 (“60-Day Notice”). The Commission did not receive any relevant comments on the 60-Day Notice.

Burden Statement: The Commission is revising its estimate of the burdens for the collections to reflect the current number of respondents and estimated burden hours. The respondent burdens for the collections are estimated to be as follows:

Number of Registrants: 107.
Estimated Average Burden Hours per Registrant: 1,274.5.
Estimated Aggregate Burden Hours: 136,371.5.

See 17 CFR 1.31 and 23.203.

SUPPLEMENTARY INFORMATION:

Title: Protection of Collateral of Counterparties to Uncleared Swaps; Treatment of Securities in a Portfolio Margining Account in a Commodity Broker Bankruptcy (OMB Control No. 3038-0075). This is a request for an extension of a currently approved information collection.

Abstract: Section 4s(l) of the Commodity Exchange Act requires swap dealers (“SDs”) and major swap participants (“MSPs”) to notify uncleared swap counterparties that they have the right to request that property provided as margin be segregated, and to report quarterly to counterparties who have not requested segregated accounts that the back office procedures of the swap dealer or major swap participant with respect to margin and collateral comply with the parties’ agreement. Regulations 23.701 and 23.704 establish reporting requirements that are mandated by Section 4s(l) and, thus, are necessary to implement the objectives of Section 4s(l). Regulation 23.701 requires that the SD or MSP notify the counterparty at the beginning of the swap trading relationship of the counterparty’s right to require segregation of initial margin, and to permit the counterparty to change that election by written notice to the SD or MSP. Regulation 23.704 requires that, in certain circumstances, an SD or MSP must report to the counterparty, on a quarterly basis, that the back office procedures of the swap dealer or major swap participant relating to margin and collateral requirements are in compliance with the agreement of the counterparties. The data required to be compiled and maintained pursuant to Regulations 23.701 and 23.704 would be used by uncleared swap counterparties (and, in some instances, the CFTC and self-regulatory organizations).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. On February 22, 2022, the Commission published in the **Federal Register** notice of the proposed extension of this information collection and provided 60 days for public comment on the proposed extension, 87 FR 9583 (“60-Day Notice”). The Commission did not receive any relevant comments on the 60-Day Notice.

Burden Statement: The Commission is revising its estimate of the burden for this collection to reflect the current number of respondents and estimated

burden hours. The respondent burden for this collection is estimated to be as follows:

- **Regulation 23.701:**
Estimated Number of Respondents: 108.
Estimated Average Burden Hours per Respondent: 600 hours.
Estimated Total Annual Burden Hours: 64,800 hours.
Frequency of Collection: Beginning of the swap trading relationship with a counterparty.
- **Regulation 23.704:**
Estimated Number of Respondents: 108.
Estimated Average Burden Hours per Respondent: 806 hours.
Estimated Total Annual Burden Hours: 87,048 hours.
Frequency of Collection: Quarterly (4 times per year).
- **Total Annual Burden for the Collection:** 151,848 hours.

There are no capital costs or operating and maintenance costs associated with this collection.
