Notice of a Change in Status of an Extended Benefit (EB) Period for Alaska

This notice announces a change in benefit period eligibility under the EB Program for Alaska.

Summary: The following change has occurred since the publication of the last notice regarding the State's EB status:

- Alaska's 13-week insured unemployment rate for the week ending April 9, 2005, fell below the 6.0 percent threshold and was less than 120 percent of the average for the corresponding 13-week period for the prior two (2) years, causing Alaska's EB period that began March 6, 2005, to trigger "off" effective June 4, 2005.

Information for Claimants

The duration of benefits payable in the EB Program, and the terms and conditions on which they are payable, are governed by the Federal-State Extended Unemployment Compensation Act of 1970, as amended, and the

operating instructions issued to the states by the U.S. Department of Labor. In the case of a state ending an EB period, the State Workforce Agency will furnish a written notice to each individual who is currently filing a claim for EB of the forthcoming end of the EB period and its effect on the individual's rights to EB (20 CFR 615.13(c)(4)).

Signed at Washington, DC, on July 1, 2005.

Emily Stover DeRocco,

Assistant Secretary of Labor for Employment and Training.

Mine Safety and Health Administration

Summary of Decisions Granting in Whole or in Part Petitions for Modification

AGENCY: Mine Safety and Health Administration (MSHA), Labor.

ACTION: Notice of affirmative decisions issued by the Administrators for Coal Mine Safety and Health and Metal and Nonmetal Mine Safety and Health on petitions for modification of the application of mandatory safety standards.

SUMMARY: Under section 101 of the Federal Mine Safety and Health Act of 1977, the Secretary of Labor (Secretary) may allow the modification of the application of a mandatory safety standard to a mine if the Secretary determines either that an alternate method exists at a specific mine that will guarantee no less protection for the miners affected than that provided by the standard, or that the application of the standard at a specific mine will result in a diminution of safety to the affected miners.

Final decisions on these petitions are based on the petitioner's statements, comments and information submitted by interested persons, and a field investigation of the conditions at the mine. MSHA, as designee of the Secretary, has granted or partially granted the requests for modification listed below. In some instances, the decisions are conditioned upon compliance with stipulations stated in the decision. The term FR Notice appears in the list of affirmative decisions below. The term refers to the **Federal Register** volume and page where MSHA published a notice of the filing of the petition for modification.
