

VIII. Recommendation

[FR Doc. 2021-07728 Filed 4-14-21; 8:45 am]

BILLING CODE 3510-DS-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; West Coast Region Groundfish Trawl Fishery Monitoring and Catch Accounting Program

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 22, 2020 (85 FR 83517) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic & Atmospheric Administration (NOAA), Commerce.

Title: West Coast Region Groundfish Trawl Fishery Monitoring and Catch Accounting Program.

OMB Control Number: 0648-0619.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 153

Average Hours per Response: For 5 existing observer providers: 2 hours for preparation and submission of the annual observer provider permit renewal application. For 1 new observer provider: 10 hours for observer provider permit application preparation and submission. For 1 observer provider: 4 hours for a written response and submission of an appeal if an observer provider permit is denied. For 45 catch monitors: 1 hour for submission of qualifications to work as a catch monitor. For 5 catch monitors: 4 hours for a written response and submission of an appeal if a catch monitor permit is denied. For 16 vessels in the Mothership or Catcher/Processor fleet, 30 minutes or less for satisfying

requirements for use of at-sea scales, including daily testing reports (30 minutes), daily catch and cumulative weight reports (10 minutes), audit trail (1 minute), calibration log (2 minutes), and fault log (3 minutes).

Total Annual Burden Hours: 447 hours.

Needs and Uses: As part of its fishery management responsibilities, the National Marine Fisheries Service (NMFS) collects information to determine the amount and type of catch taken by fishing vessels. This collection supports monitoring requirements including scale test requirements for first receivers in the Pacific Coast groundfish fishery's shorebased individual fishery quota (IFQ) program; and mothership and catcher/processors in the at-sea whiting fisheries. The collection also supports permits for businesses that provide certified observer and certified catch monitor services. The respondents are principally shorebased first receivers, catch monitor and observer service providers, mothership processors, and catcher/processors, which are companies/partnerships.

Affected Public: Business or other for-profit organizations.

Frequency: Reporting on occasion, daily, weekly, or annually.

Respondent's Obligation: Mandatory.

Legal Authority: Magnuson-Stevens Fishery Conservation and Management Act.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648-0619.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; West Coast Region Vessel Monitoring System Requirement in the Pacific Coast Groundfish Fishery

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 11, 2021, (86 FR 1947), during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: West Coast Region Vessel Monitoring System Requirement in the Pacific Coast Groundfish Fishery.

OMB Control Number: 0648-0573.

Form Number(s): N/A.

Type of Request: Regular submission (revision of a current information collection).

Number of Respondents: 1,000.

Average Hours per Response: Four hours to install and activate a VMS unit; one hour to maintain a VMS unit, five minutes to complete and fax a check-in report or to complete an exemption report; four minutes for a declaration report.

Total Annual Burden Hours: 2,021.

Needs and Uses: This is a request for a revision and extension of a currently approved information collection. The National Marine Fisheries Service (NMFS) implemented a Vessel Monitoring Program in 2004, consistent with the Magnuson-Stevens Fishery Conservation and Management Act (MSA) and the Pacific Coast Groundfish Fishery Management Plan (FMP). Under this program described at 50 CFR 660.13 and 660.14, all commercial fishing vessels fishing in the exclusive economic zone off the West Coast that take and retain groundfish in federal waters, or transit through federal waters

with groundfish on board, are required to have a working vessel monitoring system (VMS). To support the VMS monitoring program, the following information must be submitted to NMFS: (1) VMS installation/activation certification reports, (2) position reports, (3) exemption reports, and (4) declaration reports. The VMS, along with the fishing declaration reporting requirements, allows for monitoring and enforcement of areas closed to fishing by gear type as traditional enforcement methods (such as aerial surveillance, boarding at sea via patrol boats, landing inspections and documentary investigation) are especially difficult to use when the closed areas are large-scale and the lines defining the areas are irregular.

The collection is being revised to remove the position report from the collection with regard to burden. The position reports are automatically transmitted location signals from the VMS unit that do not require any action on the part of the captain or crew.

Affected Public: Business or other for-profit organizations; individuals or households.

Frequency: Installation/Activation/Maintenance once every four years; exemption reports are optional (estimated 2/year for 500 participants); declaration reports are estimated to be sent by each participant 20 times per year.

Respondent's Obligation: Mandatory.

Legal Authority: 50 CFR 660.13 and 660.14.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function and entering either the title of the collection or the OMB Control Number 0648–0573.

Sheleen Dumas,

Department PRA Clearance Officer, Office of the Chief Information Officer, Commerce Department.

BILLING CODE 3510–22–P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Alaska Chinook Salmon Economic Data Report (EDR)

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on January 13, 2021 (86 FR 2646), during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Alaska Chinook Salmon Economic Data Report (EDR).

OMB Control Number: 0648–0633.

Form Number(s): None.

Type of Request: Regular submission (extension of a current information collection).

Number of Respondents: 150.

Average Hours per Response:

Compensated Transfer Report: 40 hours; Vessel Fuel Survey: 4 hours; Vessel Master Survey: 4 hours; CTR Verification Audit: 4 hours.

Total Annual Burden Hours: 600 hours.

Needs and Uses: The National Marine Fisheries Services (NMFS), Alaska Regional Office, is requesting extension of the currently approved information collection for the Alaska Chinook Salmon Economic Data Report (the EDR). The EDR collects economic data for the Alaska Chinook Salmon Economic Data Report Program.

NMFS manages the Bering Sea pollock fishery under the American Fisheries Act (AFA) (16 U.S.C. 1851). AFA fishing vessels harvest pollock in the Bering Sea pollock fishery using pelagic (midwater) trawl gear, which consists of large nets towed through the water by the vessel. At times, Chinook salmon and pollock occur in the same locations in the Bering Sea; consequently, Chinook salmon are

incidentally caught in the nets as pollock is harvested. This incidental catch is called bycatch and is also called prohibited species catch (PSC).

The EDR Program provides NMFS and the North Pacific Fishery Management Council (Council) with data to evaluate the effectiveness of Chinook salmon bycatch management measures for the Bering Sea pollock fishery that were implemented under Amendment 91 to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (75 FR 53026, August 30, 2010). The EDR consists of three data collections that are submitted annually by owners and operators of catcher vessels, catcher/processors, motherships, and the Western Alaska Community Development Quota Program groups qualified to participate in the Bering Sea pollock fishery (50 CFR 679.65). The EDR Program also includes a means for NMFS to verify the data submitted in these three collections.

NMFS and the Council use the information to determine the effectiveness of the Incentive Plan Agreement (IPA) (see OMB Control No. 0648–0401), the IPA incentives, the PSC limits, and the performance standard in terms of minimizing salmon bycatch in times of high and low levels of salmon abundance. NMFS and the Council also use the data to evaluate how Amendment 91 affects where, when, and how pollock fishing and salmon bycatch occur and to study and verify conclusions drawn by industry in the IPA annual reports.

The EDR is submitted annually by each person who held AFA pollock quota share in the previous calendar year or was an owner or leaseholder of an AFA permitted vessel in the previous calendar year.

The EDR requirements are located at 50 CFR 679.65.

Affected Public: Individuals or households; Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Mandatory

Legal Authority: American Fisheries Act (16 U.S.C. 1851); Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*).

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov.
