

DEPARTMENT OF HEALTH AND HUMAN SERVICES**National Institutes of Health****Proposed Collection; Comment Request; National Cancer Institute Science Enrichment Program Surveys**

SUMMARY: In compliance with the requirement of section 44 U.S.C. 3507(a)(1)(D) of the Paperwork Reduction Act of 1995, for opportunity for public comment on proposed data collection projects, the National Cancer Institute (NCI), the National Institutes of Health (NIH) will publish periodic summaries of proposed projects to be submitted to the Office of Management

and Budget (OMB) for review and approval.

Proposed Collection: Title: National Cancer Institute Science Enrichment Program Evaluation: Follow-up Survey. *Type of Information collection Request:* New. *Need and Use of Information Collection:* NCI SEP is a five-week summer residential program on university campuses that services under-represented minority and underserved students who have just completed ninth grade. The program goals are to (1) Encourage student participants to select careers in science, mathematics, and/or research, and (2) broaden and enrich students' science, research, and sociocultural

backgrounds. The proposed data collection is a follow-up survey of SEP students who participated in the program during one of three different funding cycles between 1990 and 2003, and a control group of students who did not participate in the program. The information from the proposed data collection will supplement previous evaluation results, which have been and will continue to be used to judge program process and outcomes. *Frequency of Response:* One time. *Affected Public:* Individuals or households. *Type of Respondents:* High school and college students, and young adults. *Cost to Respondents:* \$5,872. The annual reporting burden is as follows:

ESTIMATES OF HOUR BURDEN: BURDEN REQUESTED

Type of respondents	Number of respondents	Frequency of response	Average time per response	Average annual hour burden
Former SEP Participants (1990–2003):				
SEP participants 1990–1997	644	1	0.25	161
SEP participants 1998–2002	479	1	0.25	119.75
SEP participants 2003	100	1	0.25	25
Control Group Participants	245	1	0.25	61.25
Total	1,468	367

There are no Capital Costs, Operating Costs, and/or Maintenance Costs to report.

Request for Comments: Written comments and/or suggestions regarding the item(s) contained in this notice, especially regarding the estimated public burden and associated response time, should be directed to the: Office of Management and Budget, Office of Regulatory Affairs, New Executive Office Building, Room 10235, Washington, DC 20503, Attention: Desk Officer for NIH. To request more information on the proposed project or to obtain a copy of the data collection plans and instruments, contact: Mr. Frank Jackson, Center to Reduce Cancer Health Disparities, National Cancer Institute, National Institutes of Health, 6116 Executive Boulevard, Suite 602, Rockville, MD 20852, or call non-toll-free number (301) 496–8589, or e-mail your request, including your address to fj12i@nih.gov.

Comments Due Date: Comments regarding this information collection are best assured of having their full effect if received within 30 days of this publication.

Dated: July 28, 2004.

Rachelle Ragland-Greene,
NCI Project Clearance Liaison, National Institutes of Health.

DEPARTMENT OF HEALTH AND HUMAN SERVICES**National Institutes of Health****Prospective Grant of Exclusive License: Commercializing Instruments, Reagents and Related Products Used for Sequencing of Single Nucleic Acid Molecules on a Substrate, Based on High Speed Parallel Molecular Nucleic Acid Sequencing Method**

AGENCY: National Institutes of Health, Public Health Service, DHHS.

ACTION: Notice.

SUMMARY: This is notice, in accordance with 35 U.S.C. § 209(c)(1) and 37 CFR 404.7(a)(1)(i), that the National Institutes of Health (NIH), Department of Health and Human Services, is contemplating the grant of an exclusive license to practice the invention embodied in Patent Applications US 60/151,580, filed August 29, 1999; PCT/

US00/23736, filed August 29, 2000 and US 10/070,053, filed June 10, 2002; entitled “High Speed Parallel Molecular Nucleic Acid Sequencing”, to Helicos BioSciences Corporation, having a place of business in Cambridge, MA. The patent rights in this invention have been assigned to the United States of America.

DATES: Only written comments and/or application for a license that are received by the NIH Office of Technology Transfer on or before October 4, 2004 will be considered.

ADDRESSES: Requests for a copy of the patent application, inquiries, comments and other materials relating to the contemplated license should be directed to: Cristina Thalhammer-Reyero, Ph.D., M.B.A., Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852–3804; Email: ThalhamC@mail.nih.gov; Telephone: 301–435–4507; Facsimile: 301–402–0220.

SUPPLEMENTARY INFORMATION: The invention relates to a method and apparatus for DNA sequencing, also known as Two Dye Sequencing (TDS). This invention is based on Fluorescence Resonance Energy Transfer (FRET), a technology increasingly in use for
