Animal and Plant Health Inspection Service

Title: Select Agent Registration.

OMB Control Number: 0579-0213.

Summary of Collection: The Public Health Security and Bioterrorism Preparedness and Response Act of 2002 were signed into law June 12, 2002. This law is designed to prevent, prepare for and respond to bioterrorism and other public health emergencies. The law requires individuals possessing agents or toxins deemed a severe threat to animal or plant health, or to animal or plant products, to be registered with the Secretary of Agriculture unless they have been specifically exempted. The registration process entail the use of a number of separate forms designed to obtain critical information concerning individuals or facilities in possession of certain agents or toxins, as well as the specific characteristics of the agents or toxins—including name, strain, and genetic information.

Need and Use of the Information: The Animal and Plant Health Inspection Service (APHIS) will collect information to determine the biosafety level of an entity as well as the entity's biosecurity situation. The collected information will also be used to ensure that appropriate safeguard, containment, and disposal requirements commensurate with the risk of the agent or toxin are present at the entity, thus preventing access to such agents and toxins for use in domestic or international terrorism. If the information were not collected, APHIS efforts to more aggressively prevent a bioterrorism event in the United States would be compromised.

Number of Respondents: 655.

Frequency of Responses: Recordkeeping; Reporting: On occasion.

Total Burden Hours: 1,268.
