BILLING CODE 4140-01-P

DEPARTMENT OF HOMELAND SECURITY

U.S. Customs and Border Protection

Facial Comparison for APIS Compliance Test

AGENCY: U.S. Customs and Border Protection, Department of Homeland Security.

ACTION: General notice.

SUMMARY: This document announces that U.S. Customs and Border Protection (CBP) plans to conduct a voluntary test in which participating commercial airlines and vessels use CBP's Traveler Verification Service (TVS) facial comparison service to comply with certain regulatory requirements regarding the Advance Passenger Information System (APIS). CBP regulations currently require an appropriate official of commercial aircraft and commercial vessels (collectively "carriers") to submit electronic manifests to CBP listing crew, non-crew, and passenger (collectively "travelers") information upon arrival and departure of aircraft and vessels. The carrier is required to compare the travel documents presented by the travelers with the information the carrier submits to CBP to, among other things, ensure that the information is correct and that each traveler is the person to whom the travel document was issued. Additionally, the carrier is required to ensure that the travel document presented is valid for travel to the United States. Participation in this pilot does not remove this requirement for carriers. During this test, participating carriers will use the existing TVS facial comparison service

to ensure the manifest information transmitted to CBP is correct and to perform the required identity verification. The use of TVS technology for APIS verification purposes has the potential to speed up the departure process for both carriers and travelers, as it enables travelers to be matched more efficiently to their travel documents. This notice provides a description of the test, sets forth requirements for participation, and invites public comment on any aspect of the test.

DATES: The test will begin no earlier than February 16, 2023 and will run for at most two years. CBP is accepting applications from carriers to participate in the test on a rolling basis throughout the two-year testing period. CBP will announce any modifications by notice in the **Federal Register**.

ADDRESSES: Applications to participate in the Facial Comparison for APIS Compliance Test must be submitted via email to simplifytravel@cbp.dhs.gov. Written comments concerning program, policy, and technical issues may also be submitted via email to simplifytravel@cbp.dhs.gov.

FOR FURTHER INFORMATION CONTACT: Natascha A. Guterthuth, Program Manager, Admissibility and Passenger Programs, Office of Field Operations, natascha.a.guterthuth@cbp.dhs.gov or (202) 417-0096.

SUPPLEMENTARY INFORMATION:

Background

APIS Requirements

The Advance Passenger Information System (APIS) is an electronic data system that allows carriers to transmit traveler data to CBP. Under the relevant statutes and CBP regulations, an appropriate official¹ of each carrier arriving in or departing from the United States must transmit an electronic manifest to CBP's APIS system for all travelers within a specified timeframe (generally before the vessel or aircraft departs, though the exact timeframe varies, depending on the circumstances of the trip and type of carrier). See 8 U.S.C. 1221, 19 U.S.C. 1433, and 49 U.S.C. 44909; 19 CFR 4.7b(b), 4.64(b), 122.49a(b), 122.49b(b), 122.49c, 122.75a(b), and 122.75b(b). The electronic manifest must include the travelers' biographic information

¹ An "appropriate official" is defined as the master or commanding officer, or authorized agent, owner, or consignee of a commercial aircraft or vessel; this term and the term "carrier" are sometimes used interchangeably within the regulations. See title 19 of the Code of Federal Regulations parts 4 and 122 (19 CFR parts 4 and 122).

including name, age, gender, date of birth, citizenship, passport number if relevant, and numerous other biographic data elements depending upon the type of traveler (e.g., crew or passenger), as well as such other information as determined necessary by the Secretary of the Department of Homeland Security (DHS),² in consultation with the Secretary of State, for flights and vessels arriving in and departing from the United States, or as determined necessary by the Administrator of the Transportation Security Administration (TSA), in consultation with the Commissioner of CBP, for flights arriving in the United States. See 8 U.S.C. 1221; 49 U.S.C. 44909. Among other things, the carrier must compare the travel document presented by the traveler with the information the carrier is transmitting to CBP on the electronic manifest in order to (1) verify that the manifest information transmitted to CBP is correct and (2) verify that the traveler is the person to whom the travel document was issued. These two requirements will be referred to in this document as the "APIS verification requirements". See 19 CFR 4.7b(d), 4.64(d), 122.49a(d), 122.49b(d), 122.75a(d), and 122.75b(d).

The Facial Comparison for APIS Compliance Test

Description and Purpose

CBP plans to conduct a voluntary test (the "Facial Comparison for APIS Compliance Test" or the "APIS test") in which participating commercial airlines and vessels use CBP's Traveler Verification Service (TVS) facial comparison service to comply with the APIS verification requirements referenced in the background section of this document. CBP's TVS facial comparison service is part of an information technology system that provides facial matching for photos to verify the identity of travelers entering and leaving the United States pursuant to 8 CFR 215.8 and 235.1.³ The purpose

² Upon the creation of the Department of Homeland Security (DHS), through the Homeland Security Act of 2002, Public Law 107-296, 116 Stat. 2140 (2002), and the Department of Homeland Security Reorganization Plan of November 25, 2002, as modified, the functions of the Immigration and Naturalization Service (INS) of the Department of Justice, and all authorities with respect to those functions were transferred to DHS on March 1, 2003.

³ TVS is used at participating ports of entry and with participating carriers to biometrically confirm the identity of noncitizens who are subject to biometric facial comparison when entering and exiting the United States pursuant to 8 CFR 215.8 and 235.1. Additionally, TVS is used for other travelers who submit their facial images voluntarily to participating carriers or at participating ports of
