Abstract: The U.S. Fish and Wildlife Service National Conservation Training Center in Shepherdstown, West Virginia, provides natural resource and other professional training for Service employees, employees of other Federal agencies, and other affiliations, including State agencies, private individuals, not-for-profit organizations, and university personnel. FWS Form 3-2193 (Training Application) is a quick and easy method for prospective non-Department of the Interior students to request training. We encourage applicants to use FWS Form 3-2193 and to submit their requests electronically. However, we do not require applicants to complete both a training form

required by their agency and FWS Form 3-2193. NCTC will accept any single training request as long as each submission identifies the name, address, and phone number of the applicant, sponsoring agency, class name, start date, and all required financial payment information.

NCTC uses data from the form to generate class rosters, class transcripts, and statistics, and as a budgeting tool for projecting training requirements. It is also used to track attendance, mandatory requirements, tuition, and invoicing for all NCTC-sponsored courses both on- and off-site.

Comments: On December 16, 2010, we published in the **Federal Register** (75 FR 78731) a notice of our intent to request that OMB renew approval for this information collection. In that notice, we solicited comments for 60 days, ending on February 14, 2011. We received one comment. The comment was directed to the subject matter, validity, and necessity of the training and not to the information collection requirements. The commenter believes that employees should obtain training prior to employment and that further training is unnecessary. We have not made any changes to the collection in response to this comment.

We again invite comments concerning this information collection on:

- Whether or not the collection of information is necessary, including whether or not the information will have practical utility;
- The accuracy of our estimate of the burden for this collection of information;
- Ways to enhance the quality, utility, and clarity of the information to be collected; and
- Ways to minimize the burden of the collection of information on respondents.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment, including your personal identifying information, may be made publicly available at any time. While you can ask OMB in your comment to withhold your personal identifying information from public review, we cannot guarantee that it will be done.

Dated: September 21, 2011.

Chief, Division of Policy and Directives Management, U.S. Fish and Wildlife Service.
