ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R10–OAR–2020–0108; FRL–10009–59–Region 10]

Air Plan Approval; Washington; Northwest Clean Air Agency

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving revisions to

the Washington State Implementation Plan (SIP) that were submitted by the Washington Department of Ecology (Ecology) in coordination with the Northwest Clean Air Agency (NWCAA). This revision updates certain NWCAA regulations currently in the SIP, removes obsolete regulations, and approves a subset of updated Ecology regulations to apply in NWCAA’s jurisdiction.

DATES: This final rule is effective July 15, 2020.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R10–OAR–2020–0108. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information the disclosure of which is restricted by statute. Certain other material, such as

copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available at <https://www.regulations.gov>, or please contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.
FOR FURTHER INFORMATION CONTACT: Jeff Hunt, EPA Region 10, 1200 Sixth Avenue—Suite 155, Seattle, WA 98101, at (206) 553–0256, or hunt.jeff@epa.gov.
SUPPLEMENTARY INFORMATION: Throughout this document, wherever “we,” “us,” or “our” is used, it means the EPA.

I. Background

On March 24, 2020, we proposed to approve updates to certain NWCAA regulations currently in the SIP, remove obsolete regulations, and approve a subset of updated Ecology regulations to apply in NWCAA’s jurisdiction (85 FR

16599). The reasons for our proposed approval were stated in the proposed rule and will not be re-stated here. The public comment period for our proposed action ended on April 23, 2020. We received no comments. Therefore, we are finalizing our action as proposed.

II. Final Action

A. Regulations Approved and Incorporated by Reference Into the SIP

The EPA is approving and incorporating by reference into the Washington SIP at 40 CFR 52.2470(c)—*Table 5—Additional Regulations Approved for the Northwest Clean Air Agency (NWCAA) Jurisdiction*, the following NWCAA regulatory sections (effective date):

- 100 (8/21/2005), 101 (8/21/2005), 102 (8/21/2005), 200 (5/12/2019), 300 (5/12/2019), 305 (5/12/2019), 320 (5/12/2019), and 321 (05/12/2019).

The EPA is also approving and incorporating by reference the following Chapter 173–400 Washington Administrative Code (WAC) sections submitted for approval to apply within NWCAA's jurisdiction (effective date):

- 173–400–020 (12/29/2012), 173–400–025 (9/16/2018), 173–400–030 (9/16/2018), 173–400–050 (09/16/2018), 173–400–060 (11/25/2018), 173–400–091 (4/1/2011), 173–400–111 (7/1/2016), 173–400–112 (12/29/2012), 173–400–113 (12/29/2012), 173–400–117 (12/29/2012), 173–400–118 (12/29/2012), 173–400–131 (04/1/2011), 173–400–136 (12/29/2012), 173–400–151 (2/10/2005), 173–400–171 (9/16/2018), 173–400–200 (2/10/2005), 173–400–800 (4/1/2011), 173–400–810 (7/1/2016), 173–400–820 (12/29/2012), 173–400–830 (7/1/2016), 173–400–840 (7/1/2016), 173–400–850 (7/1/2016), and 173–400–860 (4/1/2011).

Please see the amendatory text for more detailed information about the provisions submitted and approved in this action, including local agency corollaries which replace certain Chapter 173–400 WAC provisions and exclusions to our approval.

B. Approved But Not Incorporated by Reference Regulations

In addition to the regulations approved and incorporated by reference above in section II of this preamble, the EPA reviews and approves state and local clean air agency submissions to ensure they provide adequate enforcement authority and other general authority to implement and enforce the SIP. However, regulations describing such agency enforcement and other general authority are generally not

incorporated by reference so as to avoid potential conflict with the EPA's independent authorities. Therefore, we are approving the following updates to NWCAA's general provisions for inclusion in 40 CFR 52.2470(e), *Table 1—Approved but Not Incorporated by Reference Regulations*: 103, 105, 110, 111, 112, 113, 114, 120, 123, 124, 131, 132, 133, 134, 135, and 303. We are also removing prior references to these provisions from 40 CFR 52.2470(c) because they are now included in 40 CFR 52.2470(e).

C. Regulations To Remove From the SIP

As discussed in the proposal for this action, we are removing from the SIP sections: 104, 106, 122, 130, 140, 145, 301, 302, 310, 322, 323, 400, 401, 410, 420, 422, and 424. We are also removing from the SIP any formerly approved WAC provisions which are replaced by local agency corollaries for facilities or actions subject to NWCAA's jurisdiction.

D. Scope of Proposed Action

This revision to the SIP applies specifically to the NWCAA jurisdiction incorporated into the SIP at 40 CFR 52.2470(c), *Table 5*. As discussed in our proposal, local air agency jurisdiction in Washington is generally defined on a geographic basis; however, there are exceptions. By statute, NWCAA does not have authority for sources under the jurisdiction of the Energy Facilities Site Evaluation Council (EFSEC). See Revised Code of Washington Chapter 80.50. Under the applicability provisions of WAC 173–405–012, 173–410–012, and 173–415–012, NWCAA also does not have jurisdiction for kraft pulp mills, sulfite pulping mills, and primary aluminum plants. For these sources, Ecology retains statewide, direct jurisdiction. Ecology and EFSEC also retain statewide, direct jurisdiction for issuing Prevention of Significant Deterioration (PSD) permits. Therefore, the EPA is not approving into 40 CFR 52.2470(c), *Table 5*, those provisions of Chapter 173–400 WAC related to the PSD program. Specifically, these provisions are WAC 173–400–116 and WAC 173–400–700 through 173–400–750, which the EPA has already approved as applying state-wide under 40 CFR 52.2470(c), *Tables 2 and 3*.

Also, as described in our proposal for this action, jurisdiction to implement the visibility permitting program contained in WAC 173–400–117 varies depending on the situation. Ecology and EFSEC retain authority to implement WAC 173–400–117 as it relates to PSD permits. However, for facilities subject to major nonattainment new source

review (NSR) under the applicability provisions of WAC 173–400–800, we are approving NWCAA's implementation of those parts of WAC 173–400–117 as they relate to major nonattainment NSR permits. Therefore, we are modifying the visibility protection Federal Implementation Plan contained in 40 CFR 52.2498 to reflect the approval of WAC 173–400–117 as it applies to implementation of the major nonattainment NSR program in NWCAA's jurisdiction.

Lastly, this SIP revision is not approved to apply on any Indian reservation land in Washington and is also not approved to apply in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

III. Incorporation by Reference

In this rule, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, we are finalizing the incorporation by reference as described in sections II.A. and II.C. of this preamble. The EPA has made, and will continue to make, these materials generally available through <https://www.regulations.gov> and at the EPA Region 10 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information). Therefore, these materials have been approved by the EPA for inclusion in the SIP, have been incorporated by reference by the EPA into that plan, are fully federally-enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA's approval, and will be incorporated by reference in the next update to the SIP compilation.¹

IV. Statutory and Executive Order Review

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, the EPA's role is to approve State choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves State law as meeting Federal requirements and does not impose additional requirements beyond

¹ 62 FR 27968 (May 22, 1997).

those imposed by State law. For that reason, this action:

- Is not a “significant regulatory action” subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866;
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);
- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);
- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);
- Is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because it does not address technical standards; and
- Does not provide the EPA with the discretionary authority to address, as

appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land in Washington except as specifically noted below and is also not approved to apply in any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. The EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by August 14, 2020. Filing a petition for reconsideration by the

Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Carbon monoxide, Incorporation by reference, Intergovernmental relations, Lead, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Sulfur oxides, Volatile organic compounds.

Dated: May 19, 2020.

Christopher Hladick,
Regional Administrator, Region 10.

For the reasons set forth in the preamble, 40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

- 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart WW—Washington

- 2. Amend § 52.2470 by revising Table 5 of paragraph (c) and Table 1 of paragraph (e) to read as follows:

§ 52.2470 Identification of plan.

* * * * *

(c) * * *

TABLE 5—ADDITIONAL REGULATIONS APPROVED FOR THE NORTHWEST CLEAN AIR AGENCY (NWCAA) JURISDICTION

[Applicable in Island, Skagit and Whatcom counties, excluding facilities subject to Energy Facilities Site Evaluation Council (EFSEC) jurisdiction; facilities subject to the Washington Department of Ecology's direct jurisdiction under Chapters 173–405, 173–410, and 173–415 Washington Administrative Code (WAC); Indian reservations; any other area where the EPA or an Indian tribe has demonstrated that a tribe has jurisdiction; and the Prevention of Significant Deterioration (PSD) permitting of facilities subject to the applicability sections of WAC 173–400–700.]

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA–R03–OAR–2019–0469; FRL–10009–51–Region 3]

Approval and Promulgation of Air Quality Implementation Plans; Pennsylvania; Regulatory Updates to Allegheny County Nonattainment New Source Review (NNSR) Permitting Requirements for 2012 Annual Fine Particulate Matter (PM_{2.5}) National Ambient Air Quality Standard (NAAQS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is approving a state implementation plan (SIP) revision by the Commonwealth of Pennsylvania, on behalf of the Allegheny County Health Department (ACHD), on May 23, 2019. The revision pertains to ACHD's amendments of the ACHD Rules and Regulations, Article XXI (Air Pollution Control) to implement Federal nonattainment new source review (NNSR) provisions for the 2012 annual fine particulate matter (PM_{2.5}) national ambient air quality standard (NAAQS). EPA is approving these revisions to the Allegheny County portion of the Pennsylvania SIP in accordance with the requirements of the Clean Air Act (CAA).

DATES: This final rule is effective on July 15, 2020.

ADDRESSES: EPA has established a docket for this action under Docket ID Number EPA–R03–OAR–2019–0469. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, e.g., confidential business information (CBI) or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are available through <https://www.regulations.gov>, or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Amy Johansen, Permits Branch (3AD10), Air & Radiation Division, U.S. Environmental Protection Agency, Region III, 1650 Arch Street, Philadelphia, Pennsylvania 19103. The telephone number is (215) 814–2156. Ms. Johansen can also be reached via electronic mail at johnasen.amy@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

On March 5, 2020 (85 FR 12882), EPA published a notice of proposed rulemaking (NPRM) for Allegheny County, Pennsylvania. In the NPRM, EPA proposed approval of amendments to ACHD Rules and Regulations, Article XXI (Air Pollution Control), sections 2102.06 (Major Sources Locating in or Impacting a Nonattainment Area), and 2101.20 (Definitions), herein referred to as Revision 90A. Specifically, Revision 90A establishes that emissions of volatile organic compounds (VOC) and ammonia are precursors to PM_{2.5} for new and modified major sources emitting PM_{2.5} in Allegheny County, Pennsylvania; establishes a significant impact level for PM_{2.5}; proposes emission offset ratios for emissions of VOC and ammonia as PM_{2.5} precursors; and amends relevant definitions. The formal SIP revision was submitted by the Commonwealth of Pennsylvania, on behalf of ACHD, on May 23, 2019.

EPA has revised the NAAQS for PM_{2.5} on multiple occasions, most recently in 2012. On December 14, 2012, the annual primary standard for PM_{2.5} was lowered from 15 micrograms per meter cubed (µg/m³) to 12 µg/m³. See 78 FR 3087 (January 15, 2013). The existing 24-hour standards (primary and secondary) were retained at 35 µg/m³, as was the annual secondary standard of 15 µg/m³. Upon promulgation of the 2012 PM_{2.5} NAAQS, EPA formally classified all of Allegheny County, Pennsylvania as moderate nonattainment for the 2012 annual PM_{2.5} standard. See 80 FR 2206 (January 15, 2015).

For areas designated as nonattainment for one or more NAAQS, the SIP must include preconstruction permit requirements for new or modified major stationary sources of such nonattainment pollutant(s), commonly referred to as “Nonattainment New Source Review.” See CAA section 172(c)(5).

ACHD's Revision 90A revises NNSR permit requirements for major sources of PM_{2.5}. Specifically, ACHD's Article XXI has been amended to implement additional provisions pertaining to PM_{2.5} precursors, as promulgated in EPA's rule entitled Fine Particulate Matter National Ambient Air Quality Standards: State Implementation Plan Requirements (2016 Implementation Rule). See 81 FR 58010 (August 24, 2016).

As required by EPA's 2016 Implementation Rule, which implements the D.C. Circuit Court's January 2013 decision in *NRDC v. EPA*,¹ areas classified as nonattainment for any PM_{2.5} NAAQS are required to comply with the provisions of CAA subpart 4 section 189(e) that require the control of major sources of PM₁₀ precursors (and hence under the court decision, PM_{2.5} precursors) “except where the Administrator determines that such sources do not contribute significantly to PM₁₀ levels which exceed the standard in the area.”² With respect to the NNSR permitting requirements, the 2016 Implementation Rule therefore

¹ 706 F.3d 428 (D.C. Cir. 2013).

² This requirement was codified in 40 CFR 51.165(a)(13). See 81 FR 58010 (August 24, 2016).
