

Frequency of response: Initially.

Total estimated burden: 1,850 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$202,000 (per year), which includes \$0 for annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is no change in the burden in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is estimated to remain the same as for the last ICR, so there is no significant change in the overall burden.
