Approval and Promulgation of State Plans for Designated Facilities and Pollutants; State of Iowa

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to approve a revision to the Iowa section 111(d) plan for the purpose of adopting by reference the commercial and industrial solid waste incineration (CISWI) rule that was Federally promulgated on October 3, 2003. The CISWI rule contains eleven major components that address the regulatory requirements applicable to existing CISWI units. When adopted by reference, these components will constitute the state plan.

DATES: Comments on this proposed action must be received in writing by September 23, 2004.

ADDRESSES: Comments may be mailed to Heather Hamilton, Environmental Protection Agency, Air Planning and Development Branch, 901 North 5th Street, Kansas City, Kansas 66101.

Comments may also be submitted electronically or through hand delivery/courier; please follow the detailed instructions in the Addresses section of the direct final rule which is located in the rules section of this **Federal Register**.

FOR FURTHER INFORMATION CONTACT:

Heather Hamilton at (913) 551-7039, or by e-mail at hamilton.heather@epa.gov.

SUPPLEMENTARY INFORMATION: In the final rules section of the **Federal Register**, EPA is approving the state's submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the rules section of this **Federal Register**.
