

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Assistant Secretary for Planning and Evaluation; Medicare Program; Meeting of the Technical Advisory Panel on Medicare Trustee Reports

AGENCY: Assistant Secretary for Planning and Evaluation, HHS.

ACTION: Notice of meeting.

SUMMARY: This notice announces a public meeting of the Technical Advisory Panel on Medicare Trustee Reports (Panel). Notice of this meeting is given under the Federal Advisory Committee Act (5 U.S.C. App. 2, section 10(a)(1) and (a)(2)). The Panel will discuss the long-term rate of change in health spending and may make recommendations to the Medicare Trustees on how the Trustees might more accurately estimate health spending in the long run. The Panel's discussion is expected to be very technical in nature and will focus on the actuarial and economic methods by which Trustees might more accurately measure health spending. Although panelists are not limited in the topics they may discuss, the Panel is not expected to discuss or recommend changes in current or future Medicare provider payment rates or coverage policy.

DATES: October 6, 2004, 8 a.m.–4 p.m. e.d.t.

ADDRESSES: The meeting will be held at HHS headquarters at 200 Independence Ave., SW., 20201, Room 325A.

Comments: The meeting will allocate time on the agenda to hear public comments. In lieu of oral comments, formal written comments may be submitted for the record to Jacob Kaplan, OASPE, 200 Independence Ave., SW., 20201, Room 411B.3. Those submitting written comments should identify themselves and any relevant organizational affiliations.

FOR FURTHER INFORMATION CONTACT: Jacob Kaplan at (202) 401-6119, jacob.kaplan@hhs.gov. **Note:** Although the meeting is open to the public, procedures governing security procedures and the entrance to Federal buildings may change without notice. Those wishing to attend the meeting should call or e-mail Mr. Kaplan by October 1, 2004, so that their name may be put on a list of expected attendees and forwarded to the security officers at HHS Headquarters.

SUPPLEMENTARY INFORMATION: On April 22, 2004, we published a notice announcing the establishment and

requesting nominations for individuals to serve on the Panel. The panel members are: Mark Pauly, Edwin Husted, Alice Rosenblatt, Michael Chernew, David Meltzer, John Bertko, and William Scanlon.

Topics of the Meeting: The Panel is specifically charged with discussing and possibly making recommendations to the Medicare Trustees on how the Trustees might more accurately estimate the long term rate of health spending in the United States. The discussion is expected to focus on highly technical aspects of estimation involving economics and actuarial science. Panelists are not restricted, however, in the topics that they choose to discuss.

Procedure and Agenda: This meeting is open to the public. Interested persons may observe the deliberations and discussions, but the Panel will not hear public comments during this time. The Commission will also allow an open public session for any attendee to address issues specific to the topic.

Authority: 42 U.S.C. 217a; Section 222 of the Public Health Services Act, as amended. The panel is governed by provisions of Public Law 92-463, as amended (5 U.S.C. Appendix 2), which sets forth standards for the formation and use of advisory committees.

Dated: September 17, 2004.

Michael J. O'Grady,
Assistant Secretary for Planning and Evaluation.

Proposed Data Collections Submitted for Public Comment and Recommendations

In compliance with the requirement of section 3506(c)(2)(A) of the Paperwork Reduction Act of 1995 for opportunity for public comment on proposed data collection projects, the Centers for Disease Control and Prevention (CDC) will publish periodic summaries of proposed projects. To request more information on the proposed projects or to obtain a copy of the data collection plans and instruments, call 404-498-1210 or send comments to Sandi Gambescia, CDC Assistant Reports Clearance Officer, 1600 Clifton Road, MS-E11, Atlanta, GA 30333 or send an e-mail to omb@cdc.gov.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Written comments should be received within 60 days of this notice.

Proposed Project

2004 State Medicaid Survey—New—National Center for Chronic Disease Prevention and Control (NCCDPHP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The proposed 2004 State Medicaid Survey will assess State Medicaid Programs to determine the extent of coverage for tobacco-dependence treatment. Tobacco use is the leading preventable cause of death in the United States. One of the 2010 National Health Objectives is to increase insurance coverage of evidence-based treatment for nicotine dependence (*i.e.*, Food and Drug Administration [FDA]-approved pharmacotherapies and total coverage of behavioral therapies in Medicaid programs) from 36 states to all 50 states and the District of Columbia. To increase both the use of treatment by smokers attempting to quit and the number of smokers who quit successfully, the Guide to Community Preventive Services recommends reducing the out-of-pocket cost of effective tobacco-dependence treatments (*i.e.*, individual, group and telephone counseling and FDA-approved pharmacotherapies). The 2000 Public Health Service (PHS) Clinical Practice Guideline supports expanded insurance coverage for tobacco-dependence treatment.

In 2000, approximately 32 million low-income persons in the United States received their health insurance coverage through federally funded State Medicaid programs; approximately 11.5 million (36%) of these persons smoked. The amount and type of coverage for tobacco-dependence treatment offered by Medicaid has been reported for 1998 and annually from 2000-2003. In 2002 and 2003, surveys were funded by the Robert Wood Johnson Foundation (RWJF). RWJF will no longer be tracking
