#### SUPPLEMENTARY INFORMATION:

##### Background

Commerce published the preliminary results of this administrative review of steel flanges from India on October 15, 2019.<sup>1</sup> For a history of events that occurred since the *Preliminary Results*, see the Issues and Decision Memorandum.<sup>2</sup>

Commerce exercised its discretion to toll all deadlines affected by the partial federal government closure from December 22, 2018 through the resumption of operations on January 29, 2019.<sup>3</sup> On February 3, 2020, Commerce extended the deadline for the final results of this administrative review. The revised deadline for the final results of this administrative review is now March 27, 2020.<sup>4</sup>

Commerce conducted this review in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act).

##### Scope of the Order

The merchandise covered by the order is steel flanges. For a complete description of the scope of the order, see the Issues and Decision Memorandum.

#### Changes Since the Preliminary Results

Based on the comments received from the interested parties after the *Preliminary Results*, we made changes to the net subsidy rates calculated for the mandatory respondents. For a discussion of these issues, see the Issues and Decision Memorandum.

#### Companies Not Selected for Individual Review

For the companies not selected for individual review, because the rates calculated for Norma and RNG were above *de minimis* and not based entirely on facts available, we applied a subsidy rate based on a weighted-average of the subsidy rates calculated for Norma and RNG using publicly ranged sales data submitted by the respondents. This is consistent with the methodology that we would use in an investigation to establish the all-others rate, pursuant to section 705(c)(5)(A) of the Act.

#### Final Results of Administrative Review

We determine that, for the period of November 29, 2016 through December 31, 2017, the following total estimated net countervailable subsidy rates exist:
