

II. Information Collection Under Section 506J of the FD&C Act and Related Voluntary Collections

Based on current registration and listing data (approved under OMB control number 0910–0625), we estimate the number of respondents that will submit a notification under section 506J of the FD&C Act to be approximately 20 percent of currently registered manufacturers. Data from our

Registration and Listing system indicate that there are approximately 42,000 unique FDA Establishment Identification registered manufacturers. Therefore, we estimate 8,400 respondents per year. We believe that the burden, as well as the provision of required information under section 506J of the FD&C Act—as well as additional voluntary information related to the determination (including additional

issues that may impact the availability of the device, such as information about critical suppliers, potential mitigations, production capacity and market share, and notification updates)—is minimal and such information is readily available to manufacturers of the applicable devices. Therefore, we estimate the burden of this information collection to be 15 minutes or less per determination and notification.

TABLE 1—ESTIMATED ANNUAL REPORTING BURDEN ¹

Activity	Number of respondents	Number of responses per respondent	Total annual responses	Average burden per response	Total hours
Shortages data collection	500	4	2,000	0.5 (30 minutes)	1,000
Information collection under section 506J of the FD&C Act	8,400	1	8,400	0.25 (15 minutes)	2,100
Additional voluntary collections related to section 506J of the FD&C Act	8,400	1	8,400	0.25 (15 minutes)	2,100
Total			18,800		5,200

¹ There are no capital costs or operating and maintenance costs associated with this collection of information.

The information collection reflects a revision to add the information collection required by section 506J of the FD&C Act (as amended by section 3121 of the CARES Act) and additional voluntary collections related to section 506J of the FD&C Act to OMB control number 0910–0491.

Upon review of OMB control number 0910–0491, we note that there is a data-entry error in the RISC/ORIA Combined Information System (ROCIS) for a previous information collection approval on February 3, 2020. Currently, ROCIS lists the total burden hours for that approval as 390 hours; the correct total burden hour estimate is 520 hours. This error has carried through to the current total hour burden listed in ROCIS as 2,481 hours for the approval on November 24, 2020; the correct total burden hour estimate should be 2,611 hours. We will correct this error upon submission of this information collection request to OMB.

Additionally, we have updated the number of respondents in each information collection to reflect our current data and estimations.

These revisions and adjustments reflect an overall increase of 2,589 hours to the (corrected) estimated total burden.

Dated: May 19, 2021.

Lauren K. Roth,

Acting Principal Associate Commissioner for Policy.
