

year intervals, periodic inspections, maintenance of the landfill cover, and activities necessary to ensure the continued protection of public health and the environment. The groundwater sampling will continue to be conducted at five-year intervals for 30 years by Allied Products Corporation in accordance with the Consent Decree.

Five-Year Review

The CERCLA requires a five-year review of all sites with hazardous substances remaining above health-based levels for unrestricted use of the site. The clean up of this site has included containment of contaminants within the landfill which will require that the five-year reviews continue in order to ensure the maintenance of the integrity of the cap. The five-year review which was conducted in September 1999 indicated that the landfill cap is performing as designed and sampling results show that there has not been any migration of contaminants off site.

Community Involvement

A Community Relations Plan was completed for the site. The Proposed Plan and the Administrative Record were available for public review during the public comment period. A public meeting was held to present the Proposed Plan for the remedy and to answer questions and receive any written comments. A Record of Decision explaining the remedy for the site was signed by EPA on September 28, 1990.

Applicable Deletion Criteria/State Concurrence

Responsible parties or other persons have implemented all appropriate response actions required, as required in 40 CFR 300.425(e)(1)(i) for deletion of a site. All completion requirements for this site have been described in the Final Close-Out Report (COR). The Final COR documents the effectiveness of the post-remedial environmental monitoring and that the remedy remains protective. Site operation and maintenance activities will be performed by Allied Products

Corporation as required by the Consent Decree. The state of Iowa has indicated their concurrence with the deletion of this site from the NPL. Therefore, EPA is proposing deletion of this site from the NPL. Documents supporting this action are available in the deletion docket.
