

including any non-federal interest that has contributed to or is expected to contribute toward the non-federal share of the proposed feasibility study or modification.

14. A statement of support from each associated non-federal interest.

Optional: attach letter(s) of support from interested stakeholders. Letters may be addressed generically to the U.S. Army Corps of Engineers, the local Corps District office, or the Assistant Secretary of the Army of Civil Works office.

15. State if the non-federal interest has the financial ability to provide for the required cost share.

16. State if there is local support for the proposal and describe the local support.

A complete list of information requested on the proposal form is available on the USACE Headquarters Annual Report web page: <https://www.usace.army.mil/Missions/Civil-Works/Project-Planning/WRRDA-7001-Proposals/>.

The information provided in a proposal will be posted to the Headquarters public website for the Annual Report. Therefore, any information that is Confidential Business Information, information that should not be disclosed because of statutory restrictions, or any other information that a non-federal interest would not want to appear publicly should not be included in the proposal.

E. Evaluation Criteria

All proposals submitted within the time frame set forth in this notice will be considered for inclusion in the 2025 Annual Report to Congress on Future Water Resources Development. To be included in the Annual Report table, the proposals must meet all the following five criteria established by Congress:

1. The proposal is related to USACE missions and authorities. The proposal must involve a proposed or existing USACE water resources project or effort where the primary purpose is flood and/or coastal storm damage reduction, commercial navigation, aquatic ecosystem restoration, or municipal or agricultural water supply. Proposals for recreation or hydropower are eligible for inclusion if undertaken in conjunction with one of the primary purposes listed in this paragraph.

2. The proposal requires specific Congressional authorization, including by an Act of Congress.

3. The proposal has not been previously authorized by Congress.

4. The proposal has not been included in the Annual Report table of any previous Annual Report to Congress on Future Water Resources Development.

5. The proposal, if authorized, could be carried out by USACE.

The purpose of the five criteria is, primarily, to determine if a proposal will require Congressional authorization for USACE to undertake the proposed water resources study or project with the non-federal interest.

Proposals for modifications to environmental infrastructure authorities are an exception to the criteria. To be included in the table within the Annual Report, the proposal must be a modification to a project that was authorized pursuant to section 219 of WRDA 1992, as amended, or must identify a programmatic modification to an environmental infrastructure assistance program, and it has not been included in any previous annual report.

Additional information and frequently asked questions on the five criteria are available on the USACE Headquarters Annual Report web page: <https://www.usace.army.mil/Missions/Civil-Works/Project-Planning/WRRDA-7001-Proposals/>.

F. Contents of the Annual Report

The Annual Report will be transmitted to Congress by the ASA(CW) and posted to the USACE Headquarters website at <https://www.usace.army.mil/Missions/Civil-Works/Project-Planning/WRRDA-7001-Proposals/>.

1. The Annual Report will include a certification by the ASA(CW) stating that each proposal included in the Annual Report meets the five criteria established by Congress or the requirements for proposed modifications to environmental infrastructure program authorities.

2. Signed Chief's Reports recommending authorization of a water resources project will be included in the Annual Report table by the ASA(CW); these proposals should not be submitted in response to this notice.

3. Section 902 of WRDA 1986, as amended, (33 U.S.C. 2280) establishes a maximum authorized cost for water resources projects (also known as the 902 limit). A post authorization change report is required to be completed to support potential modifications to the project authority, including updates to authorized project costs. Completed post authorization change reports recommending modifications to the authorization of a water resources project will be included in the Annual Report table by the ASA(CW); these proposals should not be submitted in response to this notice.

4. Proposals that do not meet all five criteria established by Congress or the requirements for proposed

modifications to environmental infrastructure program authorities will be included in an appendix table included in the Annual Report to Congress on Future Water Resources Development. Proposals in the appendix table will include a description of why those proposals did not meet the criteria established by Congress.

Michael Connor,

Assistant Secretary of the Army (Civil Works).

BILLING CODE 3720–58–P

DEPARTMENT OF DEFENSE

Department of the Navy

[Docket ID: USN–2024–HQ–0006]

Proposed Collection; Comment Request

AGENCY: Department of the Navy, Department of Defense (DoD).

ACTION: 60-Day information collection notice.

SUMMARY: In compliance with the *Paperwork Reduction Act of 1995*, the Commander, Navy Installations Command (CNIC) announces a proposed public information collection and seeks public comment on the provisions thereof. Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; the accuracy of the agency's estimate of the burden of the proposed information collection; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Consideration will be given to all comments received by July 1, 2024.

ADDRESSES: You may submit comments, identified by docket number and title, by any of the following methods:

Federal eRulemaking Portal: <http://www.regulations.gov>. Follow the instructions for submitting comments.

Mail: Department of Defense, Office of the Assistant to the Secretary of Defense for Privacy, Civil Liberties, and Transparency, 4800 Mark Center Drive, Mailbox #24, Suite 08D09, Alexandria, VA 22350–1700.

Instructions: All submissions received must include the agency name, docket number and title for this **Federal Register** document. The general policy for comments and other submissions

from members of the public is to make these submissions available for public viewing on the internet at <http://www.regulations.gov> as they are received without change, including any personal identifiers or contact information.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to Commander, Navy Installations Command (CNIC), 716 Sicard Street SE, Suite 100, Washington DC, 20374–5140, ATTN: Mr. Horace Franklin, or call 901–307–6872.

SUPPLEMENTARY INFORMATION:

Title; Associated Form; and OMB Number: Anchored4Life Evaluability Study Interviews; OMB Control Number 0703–AFLT.

Needs and Uses: DoD Child Youth Programs (CYPs) require the Anchored4Life program (A4L) to provide Transition and Resiliency training to U.S. Navy (USN), Air Force (USAF), Space Force (USSF), Army (USA), and Marine Corps (USMC) school-based elementary, middle and high schools, installation CYPs, and Geo-dispersed locations. Service Branch CYPs are required by title 10 U.S.C. 1785, “Youth Sponsorship Program,” and DoD Instruction 6060.04, “Youth Services (YS) Policy,” to provide School Liaison and Youth Sponsorship programs. Service Branches use CYP Education Services (CYES) to execute this requirement using School Liaisons (SL), School Based Programs (SBP) and Youth Programs (YP). Execution includes providing resiliency and transition training and support, as well as system navigation assistance to parents of military associated children. A4L is an essential element of the military CYPs, PreK–12 System Navigation, and youth sponsorship programs and shall be provided at military installations and be available to Geo-dispersed locations.

The USN, USAF, and USSF, through the Trevor Romain Contract HDQMWR–21–D–003, are requesting Office of Management and Budget (OMB) clearance for a qualitative study of the A4L program intended to support military-connected youth. Military-connected youth face unique challenges specific to their association with the military in addition to those that are similar to their civilian counterparts. There has been little research examining the implementation or effectiveness of programs and initiatives specifically available to support military-connected youth.

The purpose of this study is to investigate the implementation of A4L training to support military-connected youth (kindergarten through 12th grade), to review current research on K–12 military-connected youth, and evaluate A4L programming to determine effectiveness of transition, deployment support, resiliency impact on other key youth issues including bullying prevention and recovery from grief. The long-term goal is to foster life skills and resiliency in military-connected youth, of which about 45% enter Military Service as adults.

To answer these evaluative questions, semi-structured interview questions will address awareness, implementation, impact, barriers, improvement, and coordination between stakeholders related to A4L impact on military-connected youth who participate.

Affected Public: Individuals or households.

Annual Burden Hours: 232.

Number of Respondents: 576.

Responses per Respondent: 1.

Annual Responses: 576.

Average Burden per Response: 24.17 minutes.

Frequency: Once.

Dated: April 29, 2024.

Aaron T. Siegel,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

BILLING CODE 6001–FR–P

ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPPT–2020–0617; FRL–11648–01–OCSP]

Agency Information Collection Activities; Proposed Renewal of an Existing ICR Collection and Request for Comment; Collection of Information for TSCA Mercury Inventory Reporting

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA), this document announces the availability of and solicits public comment on the following Information Collection Request (ICR) that EPA is planning to submit to the Office of Management and Budget (OMB): “Collection of Information for TSCA Mercury Inventory Reporting,” identified by EPA ICR No. 2567.05 and OMB Control No. 2070–0207. This ICR represents a renewal of an existing ICR that is currently approved through February

28, 2025. Before submitting the ICR to OMB for review and approval under the PRA, EPA is soliciting comments on specific aspects of the information collection that is summarized in this document. The ICR and accompanying material are available in the docket for public review and comment.

DATES: Comments must be received on or before July 1, 2024.

ADDRESSES: Submit your comments, identified by docket identification (ID) number EPA–HQ–OPPT–2020–0617, through the Federal eRulemaking Portal at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Additional instructions on commenting or visiting the docket, along with more information about dockets generally, is available at <https://www.epa.gov/dockets>.

FOR FURTHER INFORMATION CONTACT: Katherine Sleasman, Mission Support Division (7602M), Office of Program Support, Office of Chemical Safety and Pollution Prevention, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460–0001; telephone number: (202) 566–1206; email address: sleasman.katherine@epa.gov.

SUPPLEMENTARY INFORMATION:

I. What information is EPA particularly interested in?

Pursuant to PRA section 3506(c)(2)(A) (44 U.S.C. 3506(c)(2)(A)), EPA specifically solicits comments and information to enable it to:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the Agency’s estimates of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

3. Enhance the quality, utility, and clarity of the information to be collected; and

4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses. In particular, EPA is requesting comments from very small businesses (those that employ less than 25) on examples of
