Comments Invited

Although this action is in the form of a final rule that involves requirements affecting flight safety and, thus, was not preceded by notice and an opportunity for public comment, comments are invited on this rule. Interested persons are invited to comment on this rule by submitting such written data, views, or arguments as they may desire. Communications should identify the Rules Docket number and be submitted in triplicate to the address specified under the caption **ADDRESSES**. All communications received on or before the closing date for comments will be considered, and this rule may be amended in light of the comments received. Factual information that supports the commenter's ideas and suggestions is extremely helpful in evaluating the effectiveness of the AD action and determining whether additional rulemaking action would be needed.

Comments are specifically invited on the overall regulatory, economic, environmental, and energy aspects of the rule that might suggest a need to modify the rule. All comments submitted will be available in the Rules Docket for examination by interested persons. A report that summarizes each FAA-public contact concerned with the substance of this AD will be filed in the Rules Docket.

Commenters wishing the FAA to acknowledge receipt of their mailed comments submitted in response to this rule must submit a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. 2003-SW-41-AD." The postcard will be date stamped and returned to the commenter.

The regulations adopted herein will not have a substantial direct effect on the States, on the relationship between the national Government and the States, or on the distribution of power and responsibilities among the various levels of government. Therefore, it is determined that this final rule does not have federalism implications under Executive Order 13132.

The FAA has determined that this regulation is an emergency regulation that must be issued immediately to

correct an unsafe condition in aircraft, and that it is not a "significant regulatory action" under Executive Order 12866. It has been determined further that this action involves an emergency regulation under DOT Regulatory Policies and Procedures (44 FR 11034, February 26, 1979). If it is determined that this emergency regulation otherwise would be significant under DOT Regulatory Policies and Procedures, a final regulatory evaluation will be prepared and placed in the Rules Docket. A copy of it, if filed, may be obtained from the Rules Docket at the location provided under the caption **ADDRESSES**.

Adoption of the Amendment

■ Accordingly, pursuant to the authority delegated to me by the Administrator, the Federal Aviation Administration amends part 39 of the Federal Aviation Regulations (14 CFR part 39) as follows:

PART 39—AIRWORTHINESS DIRECTIVES

■ 1. The authority citation for part 39 continues to read as follows:

Authority: 49 U.S.C. 106(g), 40113, 44701.

§ 39.13 [Amended]

■ 2. Section 39.13 is amended by adding a new airworthiness directive to read as follows:

2004-01-14 Eurocopter France:

Amendment 39-13428. Docket No. 2003-SW-41-AD.

Applicability: Eurocopter France Model EC130B4 helicopters with an air intake cowling forward attachment fitting (fitting), part number (P/N) 350A25-0405-00, -01, -02, -03, -04, and -05, installed, certificated in any category.

Compliance: Required as indicated.

To prevent failure of a forward fitting, an excess load on the other fittings, which could cause them to crack and break, which could result in loss of the air intake cowling in flight, and subsequent damage or loss of control of the helicopter, or both, accomplish the following:

(a) Visually inspect the forward fittings for breaks or cracks by following paragraph 2.B.1. of the Operational Procedure in Eurocopter Alert Service Bulletin No. 53A004, dated September 11, 2003 (ASB).

(1) For helicopters with less than 100 hours time-in-service (TIS), inspect before the helicopter reaches 110 hours TIS, unless accomplished previously, and thereafter, at intervals not to exceed 110 hours TIS.

(2) For helicopters with 100 or more hours TIS, inspect within 10 hours TIS, unless accomplished previously, and thereafter at intervals not to exceed 110 hours TIS.

(b) If one or two forward fittings are broken or cracked, inspect the center and aft fittings for breaks or cracks before further flight by following paragraph 2.B.2.b. of the ASB.

(c) Before further flight, replace any fitting that is broken or has more than two cracks, or any fitting with a crack that exceeds 10 mm in length by following paragraph 2.B.2.c. of the Operational Procedure in the ASB.

(d) For any cracked fitting that has no more than two cracks, and neither crack exceeds 10 mm in length, you are not required to replace that cracked fitting provided that you stop-drill each crack and re-inspect that fitting at intervals not to exceed 20 hours TIS. During a later inspection, if you discover that the fitting has failed, another crack has developed, or a stop-drilled crack has grown to exceed 10mm in length, replace the fitting before further flight.

(e) To request a different method of compliance or a different compliance time for this AD, follow the procedures in 14 CFR 39.19. Contact the Safety Management Group, Rotorcraft Directorate, FAA, for information about previously approved alternative methods of compliance.

(f) The inspections and replacements, if necessary, shall be done using Eurocopter Alert Service Bulletin No. 53A004, dated September 11, 2003. This incorporation by reference was approved by the Director of the Federal Register in accordance with 5 U.S.C. 552(a) and 1 CFR part 51. Copies may be obtained from American Eurocopter Corporation, 2701 Forum Drive, Grand Prairie, Texas 75053-4005, telephone (972) 641-3460, fax (972) 641-3527. Copies may be inspected at the FAA, Office of the Regional Counsel, Southwest Region, 2601 Meacham Blvd., Room 663, Fort Worth, Texas; or at the Office of the Federal Register, 800 North Capitol Street, NW., suite 700, Washington, DC.

(g) This amendment becomes effective on January 26, 2004.

Note: The subject of this AD is addressed in Direction Generale De L'Aviation Civile (France) AD 2003-358(A), dated October 15, 2003.

The free-choice medicated feed protein block is used for increased rate of weight gain in pasture cattle (slaughter, stocker, feeder cattle, and dairy and beef replacement heifers). The NADA is approved as of December 12, 2003, and the regulations are amended in 21 CFR 558.311 to reflect the approval. The basis of approval is discussed in the freedom of information summary.

In addition, Ridley Block Operations, Inc., has not been previously listed in the animal drug regulations as a sponsor of an approved application. At this time, 21 CFR 510.600(c) is being amended to add entries for the firm.

In accordance with the freedom of information provisions of 21 CFR part 20 and 21 CFR 514.11(e)(2)(ii), a summary of safety and effectiveness data and information submitted to support approval of this application may be seen in the Division of Dockets

SUPPLEMENTARY INFORMATION: In this document, the Bureau changes the addresses of the Chief Operating Officer and the Board of Directors of Federal Prison Industries, Inc. (also known as UNICOR), to correct and update them. The current addresses were published on July 26, 1990 (55 FR 30668) and, in the intervening ten years, both offices have since been relocated within the same buildings. We make this rule change to correct an obsolete room number. We do, however, want to assure the public that any mail sent to the addresses in the current regulation has been and will continue to be routed to the currently correct rooms.

Administrative Procedure Act

The Administrative Procedure Act (5 U.S.C. § 553) allows exceptions to notice-and-comment rulemaking “when the agency for good cause finds * * * that notice and public procedure thereon are impracticable, unnecessary, or contrary to the public interest.”

This rulemaking is exempt from normal notice-and-comment procedures because it merely updates addresses. This rulemaking makes no change to any rights or responsibilities of the agency or any regulated entities. Because this minor change is of a practical nature, normal notice-and-comment rulemaking is unnecessary. The public may, however, comment on this rule change because it is an interim final rule.

Executive Order 12866

This regulation has been drafted and reviewed in accordance with Executive Order 12866, “Regulatory Planning and Review”, section 1(b), Principles of Regulation. The Director, Bureau of Prisons has determined that this rule is not a “significant regulatory action” under Executive Order 12866, section 3(f), and accordingly this rule has not been reviewed by the Office of Management and Budget.

Executive Order 13132

This regulation will not have substantial direct effects on the States, on the relationship between the national government and the States, or on distribution of power and responsibilities among the various levels of government. Therefore, under Executive Order 13132, we determine that this rule does not have sufficient federalism implications to warrant the preparation of a Federalism Assessment.

Regulatory Flexibility Act

The Director of the Bureau of Prisons reviewed this regulation under the Regulatory Flexibility Act (5 U.S.C. 605(b)) and certifies that it will not have a significant economic impact upon a substantial number of small entities for the following reasons: This rule pertains to the correctional management of offenders committed to the custody of the Attorney General or the Director of the Bureau of Prisons, and its economic impact is limited to the Bureau’s appropriated funds.

Unfunded Mandates Reform Act of 1995

This rule will not result in the expenditure by State, local and tribal governments, in the aggregate, or by the private sector, of \$100,000,000 or more in any one year, and it will not significantly or uniquely affect small governments. Therefore, no actions were deemed necessary under the provisions of the Unfunded Mandates Reform Act of 1995.

Small Business Regulatory Enforcement Fairness Act of 1996

This rule is not a major rule as defined by § 804 of the Small Business Regulatory Enforcement Fairness Act of 1996. This rule will not result in an annual effect on the economy of \$100,000,000 or more; a major increase in costs or prices; or significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of United States-based companies to compete with foreign-based companies in domestic and export markets.
