#### Town of Rollinsford, New Hampshire; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and

the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380, the Office of Energy Projects has reviewed the application for a subsequent license for the Rollinsford Hydroelectric Project No. 3777, located on the Salmon Falls River in Strafford County, New Hampshire and York County, Maine, and has prepared an Environmental Assessment (EA) for the project. No federal land would be occupied by project works or located within the project boundary.

The EA contains staff's analysis of the potential environmental impacts of the project and concludes that licensing the project, with appropriate environmental protective measures, would not constitute a major federal action that would significantly affect the quality of the human environment.
