The National Institutes of Health (NIH) Sexual & Gender Minority Research Office Request for Letters of Intent and Nominations for SGM Investigator Awards Program

AGENCY: National Institutes of Health, HHS.

ACTION: Notice; call for Letters of Intent.

SUMMARY: The National Institutes of Health (NIH) Sexual & Gender Minority Research Office (SGMRO) is requesting letters of intent for the second annual Investigator Awards Program. The NIH Sexual and Gender Minority (SGM) Investigator Awards Program was developed to recognize early-stage investigators who have made substantial, outstanding research contributions in areas related to SGM health and who are poised to become future leaders or are already leading the field of SGM health research. The NIH SGMRO is currently soliciting nominations for the 2019 NIH SGM Investigator Awards. The NIH SGMRO will make two non-monetary awards this year.

DATES: Letters of intent to apply due May 20, 2019 and final nomination submissions due June 10, 2019.

FOR FURTHER INFORMATION CONTACT:

Karen Parker, Ph.D., MSW, Director, Sexual & Gender Minority Research Office (SGMRO), 6011 Executive Boulevard, Suite 206, Rockville, MD 20852, klparker@mail.nih.gov, 301-451-2055.

SUPPLEMENTARY INFORMATION: “Sexual and gender minority” is an umbrella term that encompasses lesbian, gay, bisexual, and transgender populations as well as those whose sexual orientation, gender identity and expressions, or reproductive development varies from traditional, societal, cultural, or physiological norms.

The Sexual and Gender Minority Research Office (SGMRO) coordinates sexual and gender minority (SGM)-related research and activities by working directly with the NIH Institutes, Centers, and Offices. The Office was officially established in September 2015 within the NIH Division of Program Coordination, Planning, and Strategic Initiatives (DPCPSI) in the Office of the Director.

The SGMRO has the following research-related goals: (1) Expand the knowledge base of SGM health and well-being through NIH-supported research; (2) Remove barriers to planning, conducting, and reporting NIH-supported research about SGM health and well-being; (3) Strengthen the community of researchers and scholars who conduct research relevant to SGM health and well-being; and (4) Evaluate progress on advancing SGM research.

2019 Award Details

Two non-monetary awards of recognition will be offered to early stage investigators who demonstrate both contemporary achievement in and a commitment to an area of SGM-related health research. The awardees will be invited, with all travel expenses covered (limited to reimbursement based on Federal Travel Regulations and HHS and NIH guidance), to give a lecture at the NIH in September 2019. This event will be webcast live and the presentations will be archived and available for future viewing.

Eligibility Criteria

The following individuals are not eligible to be nominated: Federal employees and interns/fellows; federal contractors; members of the NIH SGM Research Working Group, and previous NIH SGM Investigator awardees.

- At the time of the nomination due date, June 10, the candidate must meet the NIH's definitions of an early stage investigator (ESI) (<https://>
