SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–103125; File No. SR–NYSEAMER–2025–28]

Self-Regulatory Organizations; NYSE American LLC; Notice of Filing of a Proposed Rule Change To Amend the Connectivity Fee Schedule

May 27, 2025.

Pursuant to Section 19(b)(1) ¹ of the Securities Exchange Act of 1934 (“Act”) ² and Rule 19b–4 thereunder, ³ notice is hereby given that, on May 13, 2025, NYSE American LLC (“NYSE American” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Connectivity Fee Schedule to add hardware procurement services and managed services at the Mahwah Data Center. The proposed rule change is available on the Exchange’s website at www.nyse.com, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text

of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend the Connectivity Fee Schedule to add hardware procurement services and managed services in the colocation halls at the Mahwah Data Center (“MDC”).⁴

Hardware Procurement Services

The Exchange has recently received requests from several Users ⁵ and prospective Users for the Exchange to start providing hardware procurement services in the colocation halls at the MDC. Under such services, FIDS ⁶ would engage a third-party procurement specialist to procure, purchase, integrate and deliver hardware for the User to use in the colocation halls at the MDC based on specifications provided by the User. FIDS would charge the User the procurement specialist’s fees for procuring such hardware plus a 10% service fee to be retained by FIDS.

The Exchange understands that some Users would find such an arrangement desirable because it would allow them to obtain all necessary hardware from FIDS, with whom the User already has a contractual relationship, as opposed to having to contract directly with a procurement specialist or with multiple third-party hardware vendors. These Users have explained that contracting with FIDS to obtain hardware would allow the Users to avoid the onerous

process of onboarding the hardware vendors as approved sellers in their procurement systems. It is the Exchange’s understanding that such onboarding generally requires Users to, among other things: evaluate each vendor’s financial and credit history; check their service track record; evaluate their sustainability credentials; assess their compliance with regulations; obtain their agreement to an ethical code of conduct; and establish ordering processes, payment terms, and delivery processes with each vendor. By contrast, the proposed arrangement would permit the User to obtain necessary hardware by contracting only with FIDS—a vendor already established in the User’s systems—in exchange for paying FIDS a service fee equal to 10% of the procurement specialist’s fees for procuring such hardware.

Managed Services

Similarly, some Users and prospective Users have also requested that the Exchange begin providing “managed services” in the colocation halls at the MDC. The term “managed services” typically refers to a customer’s hiring a third-party vendor to provide information technology (“IT”) support for the customer’s hardware in a data center, so that the customer can focus its own IT resources elsewhere. A vendor providing managed services typically monitors the customer’s servers and other hardware in the data center, diagnoses solutions for configuration challenges, works with the data center’s operations team regarding any changes to such configurations, and provides around-the-clock monitoring, troubleshooting, and remediation of any problems concerning the customer’s hardware in the data center.

As with hardware procurement, Users and prospective Users have asked the Exchange to add a service in the colocation halls at the MDC that would permit FIDS to contract with a third-party managed services provider on the User’s or prospective User’s behalf. This would allow the Users and prospective Users to benefit from managed services within the colocation halls at the MDC while avoiding the many challenges (listed above) with onboarding a new vendor as an approved seller in their procurement systems. Under the proposed arrangement, a User could purchase managed services by contracting with FIDS, which would charge the User the specialist’s fees for performing the services plus a fee to FIDS equal to 10% of the managed services provider’s fees for providing such services.

⁴ Through its Fixed Income and Data Services (“FIDS”) business, Intercontinental Exchange, Inc. (“ICE”) operates the MDC. The Exchange and its affiliates New York Stock Exchange LLC, NYSE Arca, Inc., NYSE National, Inc., and NYSE Texas, Inc. (the “Affiliate SROs”) are indirect subsidiaries of ICE. Each of the Exchange’s Affiliate SROs has submitted substantially the same proposed rule change to propose the changes described herein. See SR–NYSE–2025–17, SR–NYSEARCA–2025–35, SR–NYSENAT–2025–10, and SR–NYSETEX–2025–07.

⁵ For purposes of the Exchange’s colocation services, a “User” means any market participant that requests to receive colocation services directly from the Exchange. See Securities Exchange Act Release No. 76009 (September 29, 2015), 80 FR 60213 (October 5, 2015) (SR–NYSEMKT–2015–67). As specified in the Connectivity Fee Schedule, a User that incurs colocation fees for a particular colocation service pursuant thereto would not be subject to colocation fees for the same colocation service charged by the Affiliate SROs.

⁶ In this proposal, the term “FIDS” includes FIDS and any ICE subsidiaries that are successors-in-interest to FIDS.
