

continuing basis, current information necessary for more timely, as well as more accurate, updating of the CPI would not be available. In addition, data would not be available to respond to the continuing demand from the public and private sectors for current information on consumer spending.

In the Quarterly Interview Survey, each consumer unit (CU) in the sample is interviewed every three months over four calendar quarters. The sample for each quarter is divided into three panels, with CUs being interviewed every three months in the same panel of every quarter. The Quarterly Interview Survey is designed to collect data on the types of expenditures that respondents can be expected to recall for a period of three months or longer. In general the expenses reported in the Interview Survey are either relatively large, such as property, automobiles, or major appliances, or are expenses which occur on a fairly regular basis, such as rent, utility bills, or insurance premiums.

The Diary (or recordkeeping) Survey is completed at home by the respondent family for two consecutive one-week periods. The primary objective of the Diary Survey is to obtain expenditure data on small, frequently purchased items which normally are difficult to recall over longer periods of time.

II. Current Action

Office of Management and Budget clearance is being sought to continue the Consumer Expenditure Surveys: The Quarterly Interview (CEQ) and the Diary (CED) and to make modifications to the CEQ.

The continuing CE Surveys provide a constant measurement of changes in consumer expenditure patterns for economic analysis and obtain data for future CPI revisions.

In the CEQ, CE is seeking clearance to make the below changes.

The CE requests clearance to modify point of purchase questions for utilities, to remove collection of data related to residential business properties, to collect all expenditures including sales tax, update wording on motorized versus non-motorized campers, collect the name of the foreign country when the point-of-service outlet is outside of the US, and update bracket ranges to more accurately reflect distributions of reported data on assets and liabilities.

The CE is also seeking clearance to streamline the CEQ questionnaire by grouping similar items together, rewording items to make collection easier cognitively, and aggregating collection of items previously collected separately where feasible. As a result, several questions were eliminated from the survey and two additional sections were added and one section was modified as listed below:

- Adding a new section, Family Care and Education that combines questions previously asked across the interview on education, day care and camps, babysitting, school meals, adult day care and in-home care for invalids.
- Adding a new section on Transportation that combines questions on vehicle operating expenses with questions on transportation via taxis, limousines, app-based ride shares, bike, scooter or moped rental using sharing services, and public transport.

- Revising the Expense Patterns section to simplify the questions on usual weekly expenses for groceries, food or beverages consumed away from home, alcohol consumed at home, cigarettes and tobacco products.
- No changes will be made in Diary (CED).

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected.
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

SUPPLEMENTARY INFORMATION: The Institute of Museum and Library Services is the primary source of federal support for the nation's libraries and museums. We advance, support, and empower America's museums, libraries, and related organizations through grant making, research, and policy development. To learn more, visit www.imls.gov.

Current Actions: This Notice proposes the clearance of the Guidelines for IMLS Grants to States Five-Year Evaluation. The Grants to States program is the largest source of Federal funding support for library services in the U.S. Using a population-based formula, more than \$160 million is distributed among the State Library Administrative Agencies (SLAAs) every year. SLAAs are official agencies charged by the Library Services and Technology Act (20 U.S.C. 9121 and 20 U.S.C. 9141) with the extension and development of library services, and they are located in each of the 50 States of the United States, the District of Columbia, the five Territories of Guam, American Samoa, the Commonwealth of Puerto Rico, the Commonwealth of the Northern Mariana Islands, and the U.S. Virgin Islands, and the three Freely Associated States of Federated States of Micronesia, Republic of Palau, and the Republic of the Marshall Islands.

Each SLAA is required, under 20 U.S.C. 9101 *et seq.* (in particular 20 U.S.C. 9134), to submit a plan that details library services goals for a five-year period, along with associated certifications. IMLS authorizing legislation (20 U.S.C. 9134) directs SLAAs to "independently evaluate, and report to the Director regarding, the activities assisted under this subchapter, prior to the end of the Five-Year Plan." This evaluation provides SLAAs an opportunity to measure progress in

meeting the goals set in their approved Five-Year Plans with a framework to synthesize information across all state reports in telling a national story. This action is to renew clearance of the Guidelines for IMLS Grants to States Five-Year Evaluation for the next three years. The 60-day Notice was published in the **Federal Register** on June 10, 2022 (87 FR 35575).

The agency has taken into consideration the one comment received under this notice.
