

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-22-1308; Docket No. CDC-2022-0007]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other federal agencies the opportunity to comment on a proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled Validated Follow-up Interview of Clinicians on Outpatient Antibiotic Stewardship Interventions. This collection aims to perform an interview of outpatient clinicians regarding the acceptability and perceived clinician level barriers associated with our year-long implementation of interventions designed around the Core Elements of Outpatient Antibiotic Stewardship.

DATES: CDC must receive written comments on or before March 25, 2022.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2022-0007 by any of the following methods:

- **Federal eRulemaking Portal:** *Regulations.gov*. Follow the instructions for submitting comments.

- **Mail:** Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. CDC will post, without

change, all relevant comments to *Regulations.gov*.

Please note: Submit all comments through the Federal eRulemaking portal (*regulations.gov*) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS H21-8, Atlanta, Georgia 30329; phone: 404-639-7570; Email: *omb@cdc.gov*.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to the OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected;

4. Minimize the burden of the collection of information on those who are to respond, including through the

use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses; and

5. Assess information collection costs.

Proposed Project

Validated Interview and Survey of Outpatient Providers on Antibiotic Stewardship Interventions (OMB Control No. 0920-1308)—Reinstatement—Division of Healthcare Quality Promotion (DHQP), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

Inappropriate antibiotic prescribing is a major driver of antibiotic resistance which is an urgent national and global health threat. Additionally, inappropriate antibiotic prescribing contributes to avoidable adverse drug events that cause substantial harm to patients. Most antibiotic prescribing originates in traditional outpatient settings such as physician offices and emergency departments and at least 30% of these prescriptions are completely unnecessary. Over the past decade there has been rapid growth in non-traditional outpatient settings including Urgent Care clinics. Recent evidence shows that when compared to traditional office settings, inappropriate antibiotic prescribing is substantially higher in Urgent Care clinics making this an important priority for antibiotic stewardship. The design, development, and evaluation of durable stewardship interventions addressing the unique setting of Urgent Care clinics is an important area of unmet need. This data will assess knowledge, attitudes, and practices related to antibiotic prescribing among clinicians after implementation of a year-long Urgent Care stewardship initiative.

CDC requests approval for an estimated 62 annual burden hours. There is no cost to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)	Total burden (in hours)
Urgent Care Clinician	Interview Guide	20	1	1	20
Urgent Care Clinician	Survey	125	1	20/60	42
Total					62

BILLING CODE 4163-18-P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

National Center for Health Statistics (NCHS), ICD-10 Coordination and Maintenance (C&M) Committee Meeting

AGENCY: Centers for Disease Control and
Prevention (CDC), Department of Health
and Human Services (HHS).

ACTION: Notice of virtual meeting.

SUMMARY: The CDC, National Center for
Health Statistics (NCHS), Classifications
and Public Health Data Standards Staff,
announces the following meeting of the
ICD-10 Coordination and Maintenance
(C&M) Committee meeting. This
meeting is open to the public, limited
only by audio lines available. Online
Registration is not required.

DATES: The meeting will be held on
March 8, 2022, from 9:00 a.m. to 5:00
p.m., EST, and March 9, 2022, from 9:00
a.m. to 5:00 p.m., EST.

ADDRESSES: This is a virtual meeting.
Information will be provided on each of
our respective web pages when it
becomes available. For CDC/NCHS
https://www.cdc.gov/nchs/icd/icd10cm_maintenance.htm. For CMS <https://www.cms.gov/Medicare/Coding/ICD9ProviderDiagnosticCodes/meetings>.

FOR FURTHER INFORMATION CONTACT:

Traci Ramirez, Medical Systems
Specialist, CDC, 3311 Toledo Road,
Hyattsville, Maryland 20782,
Telephone: (301) 458-4454; Email:
TRamirez@cdc.gov.

SUPPLEMENTARY INFORMATION:

Purpose: The ICD-10 Coordination
and Maintenance (C&M) Committee is a
public forum for the presentation of
proposed modifications to the
International Classification of Diseases,
Tenth Revision, Clinical Modification
and ICD-10 Procedure Coding System.

Matters To Be Considered: The
tentative agenda will include
discussions on ICD-10-CM and ICD-
10-PCS topics listed below. Agenda
items are subject to change as priorities
dictate. Please refer to the posted agenda
for updates one month prior to the
meeting.

ICD-10-PCS Topics

1. Administration of Spesolimab *
2. Administration of daratumumab and
hyaluronidase-fihj *
3. Administration of Defencath *
4. Administration of Maribavir *
5. Administration of Teclistamab *
6. Administration of Mosunetuzumab *
7. Administration of afamitresgene
autoleucl **
8. Administration of tabeleclleucl **
9. Administration of Treosulfan *
10. Administration of inebilizumab-cdon *
11. Administration of Xenon-129 *
12. Administration of betibeglogene
autotemcel **
13. Administration of Omidubicel **
14. Implantation of Sphenopalatine Ganglion
Stimulator for Ischemic Stroke *
15. Gene Expression Assay **
16. Vertebral Body Tethering *
17. Percutaneous Femoral-Popliteal Artery
Bypass *
18. Computer-Assisted Transcranial Magnetic
Stimulation *
19. Computer-Aided Analysis for the
Detection and Classification of Epileptic
Events *
20. Facet Replacement Spinal Stabilization
Device *
21. Insertion of Sacropelvic Fixation
System *
22. Insertion of an Implantable Vagus Nerve
Stimulation System *
23. Insertion of a Paired Vagus Nerve
Stimulation System *
24. Percutaneous Venous Thrombectomy for
Postthrombotic Syndrome *
25. Quantitative Flow Ratio for Non-invasive
Intraprocedural Analysis of Cardiac
Angiography
26. Application of Allogeneic Thymus
Derived Tissue
27. Supersaturated Oxygen Therapy
28. Assistance with Precision Stimulation
Software *
29. Section X Updates
30. Addenda and Key Updates

* Requestor has submitted a New
Technology Add-on Payment (NTAP)
application for FY 2023.

** Requestor intends to submit an
NTAP application for FY 2024
consideration.

Presentations for procedure code
requests are conducted by both the
requestor and CMS during the
Coordination & Maintenance Committee
meeting. Discussion from the requestor
generally focuses on the clinical issues
for the procedure or technology,
followed by the proposed coding
options from a CMS analyst. Topics
presented may also include requests for
new procedure codes that relate to a
new technology add-on payment
(NTAP) policy request.

CMS is continuing to modify the
approach for presenting the new
technology add-on payment (NTAP)
related ICD-10-PCS procedure code
requests that involve the administration

of a therapeutic agent for the March 8-
9, 2022 ICD-10 Coordination and
Maintenance Committee meeting.
Consistent with the requirements of
section 1886(d)(5)(K)(iii) of the Social
Security Act, applicants submitted
requests to create a unique procedure
code to describe the administration of a
therapeutic agent, such as the option to
create a new code in Section X within
the ICD-10-PCS procedure code
classification. CMS will initially only
display those meeting materials
associated with the NTAP related ICD-
10-PCS procedure code requests that
involve the administration of a
therapeutic agent on the CMS website in
early February 2022 at: <https://www.cms.gov/Medicare/Coding/ICD10/C-and-M-Meeting-Materials>.

The 13 NTAP related ICD-10-PCS
procedure code requests that involve the
administration of a therapeutic agent
are:

1. Administration of Spesolimab *
2. Administration of daratumumab and
hyaluronidase-fihj *
3. Administration of Defencath *
4. Administration of Maribavir *
5. Administration of Teclistamab *
6. Administration of Mosunetuzumab *
7. Administration of afamitresgene
autoleucl **
8. Administration of tabeleclleucl **
9. Administration of Treosulfan *
10. Administration of inebilizumab-cdon *
11. Administration of Xenon-129 *
12. Administration of betibeglogene
autotemcel **
13. Administration of Omidubicel **

These topics will not be presented
during the March 8-9, 2022 meeting.
CMS will solicit public comments
regarding any clinical questions or
coding options included for these 13
procedure code topics in advance of the
meeting continuing through the end of
the public comment period, April 8,
2022. Members of the public should
send any questions or comments to the
CMS mailbox at: ICDProcedureCodeRequest@cms.hhs.gov by the April
8, 2022 deadline.

CMS intends to post a question and
answer document in advance of the
meeting to address any clinical or
coding questions that members of the
public may have submitted. Following
the conclusion of the meeting, CMS will
post an updated question and answer
document to address any additional
clinical or coding questions that
members of the public may have
submitted during the meeting that CMS
was not able to address or that were
submitted after the meeting.

The NTAP related ICD-10-PCS
procedure code requests that do not
involve the administration of a
